THE GIANT OF THE MONTHLIES. Harper's New Monthly Magazine.

Harper's New Monthly Magazine will contain

144 octavo pages, in double columns, each year
thus comprising nearly two thousand pages of the
choicest Miscellancous Literature of the day. Every
number will contain numerous Pictorial Illustrations,
accurate Plates of the Fashions, a copiots Chronicle
of Current Events, and imparital Notices of the important books of the month. The volumes commence
with the numbers for June and December; but subscriptions may commence with any number.

Trans — The Magazine may be obtained of Booksellers. Periodical Agents, or from the Publishers, at
Three Dollars a year, or Twenty-Five Cents a number. The semi-annual volumes, as completed, nearly
bound in cloth, are sold at two dollars each, and
musin covers are furnished to those who wish to
frave their back numbers uniformly bound, at twenty,
Swe cents each. Fourteen volumes are now ready,
bound in cloth, at \$2,00 each, and also in Half Call,
at \$2,50 each.

The Publishers will supply specimen numbers gratuitously to Agents and Postmasters, and will make
liberal arrangements with them for circulating the
Magazine. They will also supply Clubs, of two persons at Five Dollars a year, or five persons at Ten
Dollars. Clerg/men and Teachers supplied at Two
Dollars a year. Numbers from the commencement
can now be supplied. Also the bound valumes.

The Magazine weighs over seven and not over
eight ounces. The postage upon each number, which
must be paid quarterly in advance as the office where
the Magazine is received, is three cents. Harper's New Monthly Magazine.

The most popular Monthly in the world.—New York Observer.

No Magazine in Europe or America is so well known; none has haif as many readers; and, we may safely say, none has received so large a tribute of admiration from the cultivated classes, that delight in a healthy, diversified, elevating periodical interature. It is the foremost Magazine of the day. The infreside never had a more delightful companion, nor the million a more entertaining friend, than Harper's Magazine.—Bethodist Protestant, (Baltimore.)

Twenty-five cents buys it—the vileapeat, richest, and most lasting luxury for the money that we know. Three dollars sever went so fat? Put the same amount in clothes, cating, drinking, furniture, and how much of a substantial thing is obtained? If ideas, facts, and sentiments have a monetary value—above all, if the humor that refreshes, the pleasantries that bring a gentle smile, and brighten the passage of a truth to your brain, and the happy combination of the real and the imaginative, without which no one can live a life above the animal, are to be put into the scale opposite to dollars and cents, then y-u may be certain, that if Harper were three or four times as dear, it would muply repay its price. It is a Magazine—not a book not a scientific periodical, nor yet a supplier of light goasip and chalty anecdotes—but a Magazine that takes every form of interesting, dignified, and attractive hierature in its grasp.—Southern Times.

The Nolumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—Boston Conrier. The most popular Monthly in the world .- New NEWARK FEMALE SEMINARY.

As established a greater celebrity than has ever been obtained by any other Starch. This has been the result of its marked euperiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established.

The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to forcign countres.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect uniformity in the quality throughout the year. This is the great Desideratum in Starch-making, and is realized now for the first time.

The very best Starch that can be made, and no other is always wanted by consumers, and this will be supplied to them by the grocers, as soon as their customers have learned which is the best, and ask for it—otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of Starch continuously for the last 27 years, and during the whole of the period, the Starch made under his supervision has been, beyond any question, the best in the market. For the first seventeen years, he had the charge of the works of Wm. Colgate & Co., not which period he invented the process of the manufacture of Corn Starch.

ID Ask for Kingsford's Starch, as the name Oswego has been recently taken by another factory.

Has obtained an equal celebrity with their Starch for the Laundry. This article is perfectly pure, and is, in every respect, equal to the best Bermuda Arrow Root, besides having additional qualities which render it invaluable for the dessert.

Potato Starch has been extensively packed and sold as Corn Starch, and has given false impressions to manny, as to the real merits of our Corn Starch.

From its great delicacy and purity, it is coming also nto extensive use as a diet for infants and invalids.

Prof. WOOD'S HAIR RESTORATIVE. MILAT all the Bald and Gray can be re-

That all the Bald and Gray can be resourced perfectly to original growth and color, so far as their locks are concerned does not admit of doubt; besides, it will care every possible disease of the sealp, whether developed as dandradf itching or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of caring at by magic, nervous or periodical headache, and it used twice a week by the young regularity, it will preserve the color, and keep the hair from falling, to any imaginable age. Read and lodge.

Millford, Worcester Co., Mass., Nov., 1855.

Prof. O. J. Wood—Dear Sir: I take pleasure in hearing voluntary testimory to the imagic effects of your wonderful Hair Restorative. As far back as 1836, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fail for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my unter as sonishment, found, after a few applicatione, that my hair became firmly set, and assumed a glossy and benuiful appoearance; and by the time I had used a sonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches in let gli and growing fast.

Yours, truly,

ILENRY GOODRICH.

Yours, fruly,
HENRY GOODRICH.

Charleston, Mass... Aug. 2, 1855.

Gents:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hant was quite gray, and in spots entirely baid. I have now used the Restorative about five months, and my hair is entirely changed to its original color, brown and the new harris over three inches in length on the spots where it was baid. I have also been much grainfied at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out us formerly.

Respectfully yours, &c...

Hars. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.

Gents:—At your request, and being so highly pleased with the effects of the Restorative, I sam free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article. I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.

Yours respectfully, MRS. INGALLS.
