Paying an old Debt.

A merchant very extensively engaged in commerce, and located on Long Wharf, Boston, died intestate, February 18th, 1803, at the age of 75. After his death, a package of very considerable size was found carefully tied up and labeled as follows:

Notes, due bills, and accounts against sundry-persons down along shore. Some of them may be got by suit and severe dunning. But the people are poor; most of them have had fishermen's luck. My children Wolfs, Estray; H. M. North, To-Let; A. M. will do as they think best. Perhaps they will think, with me, that it is best to burn this package entire."

At Mann's Tavern, on Sunday, 9th inst. fos S. McManon, of this place.

In recording the death of this well known and most highly esteemed Columbian, we cannot but exceed the brief formality of a mere announcement of the melancholy event, and indulge our grief in a respectful tribute to the many virtues of the lamented deceased. Of his life previous to his apcentance in our town we can say nothing but from the moment of his entrance into society (the first society) here, a few years since, he took his place as a public favorite. His gentle disposition endeared him to his female acquaintances, while his unflagging gentlemen with whom he was brought into intimate companionship. He was intro-

The aggregate vote, as above, which, (figure, not mare,) at solemn intervals, proceeded the appaling words:

"Fore God, dat Grey Hoss is sick." Although nothing could be extracted from reiteration of the melancholy sentence, and having proved groundless. The squatter the explanatory foot note, "Mann's Tavern," the family and friends of the defunct were a singular presentiment, were at once impressed with a despairing feeling that the illness would prove fatal. Several near and dear friends proceeded with all the haste of a two mule team to Mann's, where they arrived about 1 o'clock A. M., just in time to catch a glimpse of the colored friend, with making excellent time towards town, afoot, and to hear his tremulous voice, from a safe distance in the woods proclaim:

"De hoss is done gone, Mr. McMann, but deed sir I didn't druy him hard."

The sorrowful tidings were but too true; poor Job was taking his long rest. Stretched on a pile of straw, his countenance composed or 2.40. His gentle spirit had winged its to horse heaven? If there be an equine future we confidently assert that our la-

We copy the following from an entertaining article in Household Words, enti-

A certain English gentleman who was a regular frequenter of the green room of Drury Lane Theatre in the days of Lord Byren's Committee, and who always stood quietly on the hearthrug there, with his back to the fire, was in his usual place one chins into uncles, and little sparkling night, when a narrative was related by another gentleman newly returned from the continent, of a barrier duel that had taken place in Paris. A young Englishman-a mere boy-had been despoiled in a gaminghouse in the Palais Royal, had charged a certain gaming Count with cheating him, had gone out with the Count, had wasted his fire, and had been slain by the Count, under the frightful circumstances of the Jount's walking up to him, laying his hand on his heart, saying: 'you are a brave young fellow-have you a mother?' and on his re plying in the affirmative, remarking coolly I am sorry for her,' and blowing his vie tim's brains out. The gentleman on the hearth-rug paused in taking a pinch of snuff to hear this story, and observed with great placidity. I am afraid I must kill that ruscal.' A few nights clapsed, during which the green room hearth-rug was without him, and then he re-appeared precisely as before, and only incidentally mentioned in the course of the evening. If they are not they add much to the expression of insignificance or even coarseness. The thicker ping out for the entertainment of unborn and larger forms of snub nose in either sex commonly indicate the predominance of the material sensuous character, and a turnup nose with wide obvious nostrils is an open declaration (so far as a nose can make one,) of an empty and inflated mind; of a mind in which there is but the spurious imitation of that strength and loftier pride which the wide nostrils in a well formed nose might indicate. Large noses, in men, are generally good

signs; especially, they add emphasis to the good indication of a well formed head; but they must not be too fleshy or too lean. If they are long (yet short of being snout-like.) they mark as prolongations of the forehead, the intelligent, observant and productive nature of the refined mind. Douglas Jerrold.

We copy the following graceful tribute to the late Douglas Jerrold from the editorial department of Patnam's Monthly, entitled "Our Window:"

We see few sadder sights from Our Window this mouth, than the fresh grave of Douglass Jerrold. Wit, novelist, magazinist, satirist, dramatist, and honest man, zinist, satirist, dramatist, and honest man, Bartram A. Shaeffer, Esq., of Lancaster, by a curious infelicity of fortune he has as a candidate for the office of State Senator, hardly enjoyed the literary consideration to subject to the decision of the Union County which his merits entitled him. The "Book of Snobs," in Punch, did not strike as strongly as the "Caudle Lectures," and "St. Giles' and St. James'" is a novel in the announce that Peter Martin, of Clay twp. will be a candidate for the office of Prothonostrain and with the power of the best of contemporary novelists. Douglas Jerrold was an English literateur. He worked hard with his pen, in a myriad ways, but never quite touched that point of as a candidate for the office of Recorder, popularity which elevates an author into the County subject to the decision of the Union highest rank. His name is probably more familiarly known than his works; and of late years we have heard of him mainly by his bon-mots, for he died confessedly the township, as a candidate for Sheriff, subject wittiest man in England.

Yet he lived in a great age, and had great cotemporaries; and he, with them, fully and ably illustrated its spirit. He hated humbug, and, living in the midst of an obsequious society, he held his head erect, and bowing only to his superiors, made his bow a homage. He was caustie in his social criticisms, and a nobleman in his description was not always a noble man.

Douglas Jerrold did good service in the pattle which English literature is now fight-

ng, and his grave is the grave of a hero. He was a social, genial companion, and there are rumors of excesses which we hope were not habitual, but which it is idle to blink out of mention, if they were correct. The universal expression of sorrow for Douglas Jerrold dead, shows how deep was the regard for Douglas Jerrold living; a regard unsuspected by many who were not used often to hear his name. Thackeray in his lecture upon charity and humor, called him "an acute thinker and distinguished wit," and mentioned Jerrold and Dickens alone of the living humorists, together with alone of the living humorists, together with a "Vanity Fair party." Let us remember how nearly allied are charity and humor. Looking at this green grave, let us reflect in how many ways it is given to a man to work and to do good, and that whoever with his pen touches the hard heart, and makes President Buchanan has left Bedford pointed, are frequent in men with acute it flow with sympathy, does not die without Springs and arrived at Cumberland, on his practical knowledge of the world.
