WOOD'S HAIR RESTORATIVE -- This wonderfal preparation is having an extensive sale in all parts of the Union. It is one of the few pattent medicines which use now sold over the country, that are really what their inventors claim for them. Wherever it has had a fair trial, the result has been precisely as Wood predicts. It has never failed to turn the white har back to the natu-ral color, where the directions have been strictly fol-lowed, and in numerous cases it has restored the hair upon hends that had been baid for years. It is not pre-tended that it will make the hair grow in every case, but where it fails there is certainly no remedy. Therestora-tion of the hair has been affected in so many instances where the case scemed utterly hopeless, that it is cer-tainly worth while for all who have lost their hair to try the experiment of, using a bottle or two of Wood's Re-storative.-Moline Workman.
