P. V. R. Coventry & Co.:—Gents—My daughter's affiliction with ulcerated throat and stomach, malpitation of the heart, and nervous debutty, in fact a complete derangement of the system rendered her case almost hopeless, indeed, I have tried every syrup, balsam, and nostrum presented, with no avail, until assented learned her case and sent her some of your "Hach's American Compound" by her brother. He was very consident that it would cure her. She very reluciantly tried it for a few days, but thinking it made her worse, because her stomach and throat smarted so, she said she would not take it for it hurt her, and land it asside with her other mediennes, until her friend (who knew of similar cases cured with the Compound) wrote her saying if she would follow directions strictly for one month, and it did not cure her he would fortest a small farm. Well, she said she must give up the farm, for her throat and stomach had got well. The pulpitation left her, in fact she was vell. For the past, three months she has communed to gain strength, and has not enjoyed better health in eight years.

You may make what the you please of this for the benefit of like compound is other cases, and I truly think too much cannot be said in its praise for all nervous and scrossia diseases. Yours, with respect, Mrs. Porish will be happy to answer any communication about her daughter's case.

Back's American Compound owes its success to the Mrs. Mirrish Carnitive properties of the vegetables which compose it. It contains a Compound Finid Expected Farch Dop or Cancer Root," now, first given to the Blood, and chrome diseases in any part of the system. PURE OSWEGO STARCH, (FOR THE LAUNDRY.)

(FOR THE LAUNDRY.)

AS established a greater celebrity than has ever been obtained by any other Starch. This has been the result of its marked superiority in quality, and its invariable uniformity.

The public may be assured of the continuance of the high standard now established.

The production is over Twenty Tons daily, and the demand has extended throughout the whole of the United States, and to foreign countries.

Working thus on a very large scale, and under a rigid system, they are able to secure a perfect uniformity in the quality throughout the year. This is the great Desideration in Statch-making, and is realized now for the first time.

The very best Statch that can be made, and no other is always wanted by consumers, and this will be supplied to them by the grocers as soon as their customers have learned which is the best, and ask for it—otherwise they would be likely to get that article on which the largest profit can be made.

Mr. Kingsford has been engaged in the manufacture of Starch continuously for the last 27 years, and during the whole of the period, the Starch made under his appervision has been, beyond any question, the less in the market. For the first sevention years, he had the charge of the works of Win Colgate & Co., at which period he invented the process of the manufacture of Corn Stuch.

ID Ask for Kingstord's Starch, as the name Oswego has been recently taken by another factory.

It is sold by all of the best grocers in nearly every part of the country.
