WOOD'S HAIR DYE—This admirable article is rapidly improving the hair. No article of a similar kind, now before the public, enjoyes better reputation as a restorative and invigorating hair tonic. Its peculiar chemical qualities have a heneficial effect upon the growth and character of the hair, giving a silky and glossy texture to that which was formerly of a coast-s and dry nature. It has, also, we understand, at tendency to preserve the youthful color and appearance of the hair, and destroving or counteracting the effects of age. With such tecommendations in its favor, we hardly perceive how no, lady or gentleman should be without so valuable an adjunct to their toilet.

HOW IT WAS DISCOVERED!

In the fall of 154 a daughter of Mr Lindsey was suffering from a malignant attack of Cancerm Ons (Canker of the mouth) She had previously been prostrated by the attacks of Dysentery, Inflammation of the Langs and Heatie Fever, successively, which resulted in the above named disease in its worst form Her condition was most deployable—her mouth and check were literally rotten—the attending physician pronounced the case a hopeles one. Everything indicated a speedy and horrible death—the death of rotting out of hiel. At this critical juncture, Mr. Lindsey prepared a compound for the purpose of alleviating, if possible, the pains of the little sufferer. She was made to use it treely, and in a short time to his most delephtful astonishment, there was a very perceptible change for the better. The mouth began to put on a bright and healthy appearance—the foul breath becames weet—the appende was restored, and the child seemed to partiake of a new and fresh life.

Hope was inspired, and the use of the compound was faithfully continued, the result of which, with the blessing of God, was her complete restoration. She is now perfectly healthy? From this circumstance. Mr. Lindsey was led to prepare white free firemance, Mr. Lindsey was led to prepare white free firemance, Mr. Lindsey was led to prepare white time discussed in bringing to perfection his great Great Remedy for Blood hopurity—since which time its effects have been almost mineulous. A desperate case of Ague and Dyspepsia, emirely cured by the use of Landsey's "Improved Blood Searcher."

Blair County, st.—Personally appeared before me, the atherther, one of the Justices of the Peace, thand for said county, John Moran, who, being duly sworm according to law, doth depose and say, that, in the spring of 1556. It was a victim to that worst of disease—dyspepsia, and that in its worst form. My appetite was completely going, and when, in order to preserve life. I would force myself to swattow a mouthful of food, the stomach would immediately loather it, and cast it forth with the spittle. I had also been suffering with the Aguet each attack lasting about time months; out of the twelve, so that, with the Ague and Dyspepsia, I was reduced as I thought hey oul recovery, thought I must die, my physician could do me no good. Such was my condition, when Mr. Lindsey supplied me with a bothe of his Improved Blood Searcher, assuring the it would work a cure. I commenced its use with but little confidence but, in one week's time—or great was in sensoriate powers—I found my appeare to return my somach received a new tione, so that I could car anything without the slightest meonivemence, and hence is healing touch the ague fied as from a charm, nor have I been troubled with ague or dyspepsia since. I empty a better state of health than I had done for frieen years before; I am strong and hearry, and I feel confident that, under the blessing of 660, I owe at it on the invaliable. In proved blood Searcher I believe it not to be only a sure remedy for ague, but an mailitie preventive, and, as such I would recommend it to all whose business habits, or residences, expose them to this dreadful pest of humanity.
