Ed. Register .- The following lines, pub lished in the Atlantic Monthly by R. W. Paterson, Eq. have attracted much attention, not so much in consequence of their thauty, or other intrinsic merits, as from the fact that nobody can understand, for the life of him, what the man means:

The fact is, that Emerson has lately learned the game of Euchre, and being tescinated therewith, wished to express his teclings on the subject, but being quite unable to do so in ordinary English, unfortunately got off the above extremely mystified stanza. A little careful consideration of the terms used convinces one of this at once .-Thus "the red slayer" refers to the Right Bower (probably the Jack of Hearts); "the slain" is, undoubtedly, the Left Bower, not guarded, and yea see that Emerson probably

The Borough Election. Borough Election-Official Returns. The borough election, held on Monday, he 4th inst., resulted in the choice of Harford Fraley, Chief Burgess; John Hippey, Asst. Burgess; Jacob C. Pfuhler, Peter Fraley and Isaac Pusey, Councilmen; Richard Derrick, High Constable, and Dr. B. Rohrer and Wm. F. Given, School Directors.

Although these officers were elected by a party vote, and were opposed by regularly nominated candidates, yet we think it will be generally conceded they are, most of them. gentlemen who have taken too little part in politics, either local or general, to be classed as partizans. We therefore look to them for the banishment of the political element from our borough government, and earnestly hope

that the petty proscription of competent officers on party grounds which has prevailed for some years, will be allowed to die out as unworthy and contemptible. The miserable little spoils of borough office should not be made the subject of petty wrangles, but all incumbents, if they have ably and attentively discharged their duties, be permitted to re-

GREAT IMPROVEMENT IN MEDICAL

PREPARATIONS.

GREAT IMPROVEMENT IN MEDICAL PREPARATIONS. No medicine of luis or any age has met with such un-rivalled success in overcoming disease, as "Bach's American Compound." The enquiry is, what should render this Compound so great a curative, when all others have failed. It is because the vegetable matter which composes it is rendered into a liquid state by a new and remarkable apparating, discovered by, and known only to the proprietor of this remedy. Vitated humors of the blood. Bronchins, Ulceration of the Throat, Stomuch or Bowels. Dyspepsis, or Chronie Inflamma-tion of any membrane of the system, enfliely disappear before a timely use of this medience. Bach's American Compound owers its success to the intrinsic curative properties of the vegetables which compose it. It contains a "Compound Fluid Estractof Beach Drop or Cancer Root," now first given to the Zubide, but long krown to the Indians as a never fulling cure for Scrofulas, Consumption, Humors of the Blood, and chrone discasse in any part of the system. This medicine can now be had of all relia-ble dealers in the United Stutes and Ganada. See advertisement in another column. December 12, 1857-2m
