Report of the Board of Directors

The last assessment of 31 per cent, made in November, and the only one for the year, will be subteent to pay for all losses during the year. The Board availed themselves of the opportunity to borrow money from individuals, to pay for losses, as they occurred in order to avoid the necessity of making more than one assessment for the year, the interest of the money borrowed, being less than the expenses incurred in making an assessment. The thorse would be the opportunity to again notify members of the "original year may be used to pay their assessments, that the time for the payment of the same will be extended until the 15th of February, after which time, definquents will be called upon by a collector, duly authorized to collect the same, and they will be subject to the payment of mileage as usual. All of which is most respectfully submitted.
