GREAT IMPROVEMENT IN MEDICAL GREAT IMPROVEMENT IN MEDICAL PREPARATIONS.

No medicine of this or may age has met with such untivalled success in overcoming disease, as "Bach's American Compound." The enquiry is, what should render this Compound so great a curative, when all others have failed. It is because the vegetable matter which composes it is rendered into a liquid state by a new and remarkable apparatus, discovered by, and known only to the proprietor of this render. Vintand humors of the blood. Bronchits, likeration of the Thront, Stomach or Bowels. Dyspepta, or Chronic Inflammation of any membrane of the system, entirely disappear before a timely use of this medicine.

Bach's American Compound owes its success to the intrinsic curative properties of the vegetables which compose it. It contains a "Compound Fluid Extractof lieach Drop of Zener Root," note first given to the Public, but long known to the Indians as a never inding cure for Settofalus, Consumption, Humors of the Blood, and chronic diseases in any part of the system. This medicine can now be had of all reliable desires in the United States and Camada. See advertisement in another column.
