CHEOPLASTIC PROCESS Of Mounting Artificial Teeth.

PATENTED by Dr. Blandy, formerly Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age, and destined to work a great change in mineral and vegetable matters.

The undersigned having used the Cheoplastic Process in more than forty cases, with perfect success, and one having failed to give entire satisfaction, it gives pleasure to say to the public that he is prepared to give the best satisfaction to those who may favor him with their patronage, and recommending it as superior to any other method of mounting artificial teeth heretofore known. The same accuracy in fitting, perfect cleanliness, beauty and durability, cannot be obtained by any other process.

Partial sets can be inserted with perfect success, without the use of springs which are so destructive to the natural organs, and ought to be discontinued by every operator regarding the good of his patients.

Dr. Isaac Tomlin, Head of the Baltimore College of Dental Surgery, after using and testing the Cheoplastic Process, says in a letter to Dr Blandy, dated, "My opinion is that your patent in the hands of skillful operators, must supercede all others now in use for the same purpose, for all of them but none have any advantages over it."

The public are respectfully invited to call at the office and see the undersigned, who alone is authorized to practice the Cheoplastic Process in Lancaster city and to dispose of other rights in the counties of Lancaster Chester, Berks, Dauphin and York

HOVER'S LIQUID HAIR DYE.

THE testimony of Prof. Booth and Dr. Brinckle having previously been published, the following is now added:—

From Prof. McCloskey, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American College of Medicine, &c

Philadelphia, Nov. 27, 1856.

MR. JOSEPH E HOVER:—A trial of your Liquid Hair Dye will convince the most skeptical, that it is a safe, elegant and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head, and I have no hesitation in commending it to those requiring such an application. Very respectfully,

J. F. X. McCLOSKEY M D.,

475 Race street, above 13th

Hover's Writing Inks, including Hover's Writing Fluid, and Hover's Indelible Ink—still maintain their high character, which has always distinguished them, and the extensive and deserved favor they have created, has continued uninterrupted until the present.

Orders addressed to the Manufactory, No. 416 Race street, above Fourth, (old No. 144) Philadelphia, will receive prompt attention, by

JOSEPH E. HOVER, Manufacturer.

December 19 1857, to April 18.
