The wager was readily accepted. The stakes were placed in Sam's hands. Elated with the idea of winning back his two tens, and making a ten into the bargain, Dance carefully selected a perfect ball, and even buckskin patch, and loaded the rifle.

In this connectio. t may be said, that the condition of the Philadelphia market needs some extreme measures to bring about a reform, most desi

able to those of our citizens especially shose memory reaches back to olden time and the good cheer in "Philamachuk."-When some of us were lads, the market of his city was probably the very best in the Union; at this time it must be-if the exhibition of edibles on Market street between Front and Eleventh, be taken as a criterion -the very worst. The meats are rather 'middling" than otherwise, the best animals being sent to New York; the same fish are, for a fortnight or more, daily rinsed off to be offere I fresh for sale, and nightly shut up in the dirty little bunks which grace the sides of the market house, while the vegetableere as wrinkled and tough as if they had een under the influence of summer's sun and

And so hard is it to procure the necessaries of life, in a palatable and whilesome condition, that one need be grateful if the Fates have not lured him into the dignified luxury of house-

keep'ng. The quiet resumption of specie payments by the city banks, six days ago, did not take he community by surprise, for the double reason that very few persons were aware of the fact until informed by the papers on the following morning; and because the banks have for several weeks past, paid out specie as it was desired, to be used in the daily transaction of business.

A morning paper of Friday last, suggest that the city banks should now be relieved from the requirement of the Relief law to take "wild cat" money in payment of debts, due them. It is the general impression that

the said law which required Banking Institutions in the city to receive the notes of country banks at par, in payment of debts, also contained a provision protecting the former from losses by the currency of in solvent or "wild cat instituations," and the

method by which this was to be effected was mescribed so clearly there is little reason to pprehend that the wary city rats have been

cictimized by the cats in the country to the value of skin enough to make one pair of "genuiue French sids." The same paper ontained an article a few days ago, intended to bolster up certain railroad bonds; among others, those of the city of Pittsburg. and Allegheny county, for the roads in that ricinity. The payment of the interest on those bonds having been passed by the Companies, the payment of it by the city and county is now a matter of serious doubt. quite a strong party of the inhabitants pro-

The lelightful effect which this kind of literature as upon the minds and morals of the peode is beautifully illustrated in the constant y accelerated increase of every kind of

Mr. Ex-Secretary Stanton made a very long address, giving the history of the Kansas difficulties during ten months past, in which he showed that the whole trouble was traceable to the dihonesty and fraudulent acts of the Territorial officers. This successful meeting, together with the defeat of the Administration in Congress by one majority on the reference of the Lecompton message, to a select committee, causes great rejoicings among all the odds and ends of the opposition, and equal anxiety in the ranks of the Adminis tration party, as is apparent in the snappish articles of the Pennsylvani in, and the complacency and confidence of the Press equal to that of the best of the Stiltstalking family. The book trade is without doubt one of the most luckless victims of the last crisis. Even the galvanizing effect of a valuable present or "a costly gift with each book" has seriously declined; and the great origi ual himself, after giving away several him of coal and barrels of flour by way of a new dodge, and better eveshutter than gilt bracelets and stop watches-all stops, and little else--has relapsed into comparative insignifi cance.

Everybody who knows Major Jones is aware that he carries a precious sight more of modesty of a peculiar sort under his hat, than money in his port-monnaie--Jones gets off a sharp hit at the garroter in this wise: A short time since a highwayman undertook to rob Major Jones. He met Jones in

Jones for his pocket-book. Jones refused to vield. Highwayman then took Jones by the neck, and undertook to "choke him

down." Jones made fight, and kept it up for half an hour. At the expiration of that time Jones caved, and the highwayman

commenced rifling his pockets. The contents amounted to eighteen cents. "Is that all yo've got?"

A DINNER IN SOUTH AFRICA. I joined two friends, and started for Fort Beaufort, a day's ride distant. I was much amused at the cool manner in which our dinner was provided at the inn on the road. THE CHIEF GOING HOME.

On the road to Graham's Town, I met a large party of Kaffirs, galloping along as usual, leaving a cloud of dust behind. They pulled up as I met them, when I recognized the great Gaika chief Sandilla Anta, the giant, a splendid fellow nearly seven feet high, and all the aristocracy of Kaffirland. They had been for some time prisoners in Graham's Town for their rebellious conduct in not stopping the cattle stealing of their men, but had now been let out, and allowed to go home, on condition of promising to be good boys in future, and kissing the governor's great toe. They appeared to be in high spirits, and, in answer to my "uya pina?" (Where are you going?) shouted with exultation' "Goduka!" (going home!)
