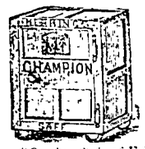
HERRING'S SAFE!



THE ACKNOWLEDGED CHAMPION.

The recent trials at Reading have endorsed the current opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the Only Safe that will not burn

Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 20th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following the burning took place, under the superintendence of the Committee. After a fair and impartial burning for 8 hours, the Safe of Messrs. Evans & Watson was first opened, the Safe being on her inside, and the contents partially consumed, while the contents in the safe of Messrs. Farrell & Herring were in good condition, and no fire inside."

And endorsed by over 20 of the best men of Reading.

The above Safes can be inspected at 51 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herring's Fire and Champion," over the doubtful and worthless Iron Door Safe manufacturers.

EVANS & WATSON,

PHILADELPHIA Manufactured SALAMANDER SAFES No. 26 S. Fourth street, Phila.

Truth is mighty and must prevail.

Report of the Committee appointed to superintend the burning of the Iron Safes, at Reading, February 27, 1857.

READING, March 1.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrel & Herring, and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books precisely alike.

The fire was started at 8½ o'clock A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the committee. The Safes were then removed off with water, after which they were opened and the books and papers taken out by the committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans and Watson were but slightly injured by the intense heat while those taken from the Safe manufactured by Farrels and Herring were in our judgement damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both safes

JACOB H DYSHER,
DANIEL S. HUNTER,

Having been absent during the burning, we fully coincide with the above statement as to the condition of the papers and books taken out of the respective safes.

G. A. NICOLLS,
H. H. MUHLENBERG,

HOVER'S LIQUID HAIR DYE.

THE testimony of Prof. Booth and Dr. Bunckle having previously been published, the following is now added —

From Prof. McCloskey, formerly Professor of Theory and Practice of Medicine in the Female Medical College of Pennsylvania, and late Professor of Surgery in the American College of Medicine, &c

Philadelphia, Nov. 27, 1856.

MR. JOSEPH E. HOVER —A trial of your Liquid Hair Dye will convince the most sceptical, that it is a superior and efficacious preparation. Unlike many others, it has in several instances proved serviceable in the cure of some cutaneous eruptions on the head and I have no hesitation in recommending it to those requiring such an application. Very respectfully,

J. F. X. McCLOSKEY, M. D.,
