EVANS & WATSON,

PHILABELPHIA Manusactured SALAMANDER SAFES
No. 26 S. Fourth street, Phila.
Truth is mighty and must preteatil.
Report of the Committee appointed to superintend the
burning of the Iron Safes, at
Reading, February 27, 1857.

Reading, February 27, 1857.

READING, March 4.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrel & Herring, and Evans & Wuison, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrel's & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books previsely alike.

The fire was a support of the same control of the same contr

factured by Evans & Watson, and put in Books piecisely alike.

The fire was started at 8½ o'clock A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the committee. The Safes were then cooled off with water, after which they were opened, and the books and papers taken out by the committee and sent to H. A. Lant's store for public examination, after they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans and Watson were but slightly affected by the intense heat while those tuken from the Safe manufactured by Forrels and Herring were in our judgment damaged fally fifteen per cent. more than those taken from fivense & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both safes. JACOB H. DYSHER, DANIELS. HUNTER, Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS.

H. H. MUHLENBERG.

JAMES MILHOLLAND.

The following named gentlemen, residents of Reading und its vinninty, who saw the above fire, have purchased (wenty-cight Safes from Evans & Watson since the turning up to May 1st, 1857:—

G. A. Nicolls, 1, Lepold Hirah, 1; Isane Ruth. 1; Kirk & Heisser, 1; W. Rhonds & Son, 1; Henry W. Missinger, 2; Dr. Wm. Moore, 1; Solomon Rhonds, 1; Lev. L. Smith, 1; High & Craig, 1; Wm. HERRING'S SAFE!

THE ACKNOWLEDGED CHAMPION.
The recent trials at Rending have endorsed the carrent or public opinion, and confirmed the verdict of more than 200 necidental fires, proving conclusively that "Herring's" is the Only Sufe that will not burn Extract from the Committee of the witness the Safes and books and papers, (placed in them,) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safe of Messra. Evans & Watson was first opened, the Safe being on fire inside, and the contents in the Safe of Messra. Forrels & Herring were in good condition, and no fire inside."

The above Safes can be inspected at 34 Walnut
Street, where the public can satisfy themselves of the
great superiority of the 'Herring's Patent Champion,'
over the defeated and used-up 'made Iron Deor Safamander.'

FARRIS & HERRING

FARRELS & HERRING. 34 Walnut Street, Philad'a makers in this State of Herring's Patent Champio

Only merers in this state of retring a reason of the parties to bolster up the reputation of a Sufe which has failed so signally in accidental fires in Philadelphia, (Rainstead Pluce.) by taking one out of an agent's store, (H. A. Laintz.) made double thickness, (different from those they sell) to "there up" one of herring's, faile as thick) has met with its true reward. Herring's Sufe could not be burnt, proving conclusively that the only reliable Sufe now made is "Herring's," of which over 15,000 are now in actual ass, and more than 200 have been tried by fire without a single loss.
