H. LINDSEY'S Great Medical Discovery!

fall activity through all the functions of life.

HOW IT WAS DISCOVERED!

In the fall of 1834 a doughter of Mr. Lindsey wastaffering from a malignant stude of Canterum Orio (Canker of the mouth). She had previously been prostrated by the attacks of Dysentery, Inflammation of the Louige and Hectic Fever, successively, which resulted in the above named disease in its worst form Her condition, was most deplorable—her mouth and check were interally rotten—the attending physician pronounced the case a hopeless one. Everything indicated a speedy and harrible death—the death of rotting out of hic. At this entireal juncture, Mr. Lindsey prepared a compound for the purpose of alternating, it possible, the failus of the hittle sufferer She was made to use it freely, and in a short time to his most delicitation atom-timent, there was a very perceptible change for the better. The mouth began to put on a bright and healthy appearance—the four breath became sweet—the appetite was restored and the child seemed to parake of a new and fresh life.

Hope was respired, and the use of the compound was fundfully continued, the result of which, with the blessing of God, was her complete restoration. She is now perfectly healthy? From this circumstance, Mr. Lindsey was led to prepare with greatercare and exactness, what had so ne-lousthingly curred his child, and continued his experimental efforts until the surfected its saving powers and sing aloud its virtue-say they—after using Lindsey's improved flood searcher, we left as if in new hie was surring our venus, and under God we owe to it more that words can express."

But hear from their own his and then judge of its valuable effects. The few testimonals that follow show that it is described; we stimonals that follow show that it is described; we stimonals that follow show that it is described; we stimonals that follows show that it is described; as all in the was surring our venus, and under God we owe to it more that words. HOW IT WAS DISCOVERED! But hear from new worm in which that follow what the effects. The few testimonials that follow show that it is deservedly styled the Grentest Discovery of this or any other age. J. M. LINDSEY.

A Desperate case of Tetter and Barber's Itch, cured by the use of Lindsey's Blood Scarcher. I, the undersqued, some time in last March, was severely affected with wait was pronounced by my phy security to be a certain kind of Tetter and Barber's Itch. My condition was one of the greatest intesty, my face was almost constantly running with the fool certaption that see upped from the toleries, by which it was almost constantly running with the fool certaption that see upped from the toleries, by which it was almost constantly running with the fool certaption that see upped from the toleries, by which it was almost constantly running did to make a trial of Lindsey's Blood Searcher, and the result was that in using one bottle and a half I found a profect circ. I may also say that I eagerly tried whitever was recommended us a cure. Such was my wretchedness that I even tesorted to the dangerous experiment or pouring pure creo-ote on my face and neck, but all to no purpose—the Blood Searcher was the first raid only thing that did me may good. As a blood purifier it is unequalited; and I have great ree-on to be grateful that I ever made a trial of its healing virtues, and I can confidently recommend it to any who may suffer from Tetter, or any other disease urising from an impure state of the blood. An interesting case of scrofula cared by one bottle

An interesting case of scrofula cared by one bottle of Lindsey's Blood Scaucher. This certifies that about one year ago our futtle son aged four years, was most sorely afficied with what the physicians pronounced to be scrotula, and was treated accordingly for nearly a year, but without the slightest benefit. His eyes were running a thin mattery humor almost constantly which would energe the year beyond the power of opening them until they were wasted and cleaned by soop and water. About the same time an ubsees formed just below the groin, which in due time broke and commerced a discharge, which was found impossible to dry up or heal—the bed would be very much stained and the clothing of the child perfectly sickening in a single night's time. After having the attentions of a physician for so long a time, and hading the child be getting worse, we determined to try the effects of Mr. Lindsey's Blood Scarcher. This was in last March—and before two weeks had passed away the change was manifest, and I am happy to say that in the see of a single bottle our bitle boy has been perfectly restored to health. We cannot speak too highly of this inva'adale medicione, it should be in every famity—none should be without it. As a purifier of blood it is beyond all time. DR. J. M. Lives it.—Dear Sit—I have been using your Improved Blood Searcher since some time last summer, and I deem it to be a matter of duty to hear my testimony to its invigorating, blood restorative virtues—I have been, for a number of years, severely troubled with erysipelus and general debility; but since I put myself under the influence of your Improved Blood Searcher, I find a very decided improvement. Indeed, my requaintances frequently remark, that I look so fat and hearty, and know of not other cause than the use of your Improved Blood Searcher, I find a very decided improvement.
