DATENTED by Dr. Blandy, formerly Profes-sor in the Baltimore College of Denial Surgery, is certainly one of the greatest discoveries of the present age, and destined to work a great change in mechanical dentistry. The understance having used the Cleoplastic Pro-cess in more than forty cases, with perfect success, not one having failed to give entire satisfaction, it being preferred to gold plate by all who have tried both, feels no besitation in recommending it as supe-rior to any other method of mounting artificial tech heretofore known. The same accuracy in fatting, per-fect elempiness, henny and darability, cannot be ob-tained by any other process. Without the use of clarps which are so destructive to the natural organs, and ought to be discontinued by every operator regurding the good of his patients. Profe-sor Thomas Bond, of the Builmore College of Denial Surgery, after usage and testing the 'Cheo-pinstic Proce-N' for himself, an a letter to Dr. Blandy, skillful operators, must superside all others now in nes, for 't has novaninges over all of them, but none has any advantages over all of them, but none ins any advantages over all of them, but none for the under-spied, who alone is authorized to practice the Cheoplostic Process in Lancaster city, and to dispose of office rights in the condices of Lan-caster, Chester, Berks, Dauphin and York. <u>601</u> North Queen street, Lancaster, Pa Nov.21, 1857-6m
