His pictures have been acknowledged to be superior to any taken in this section; and he flatters himself that he can maintain the reputation of his gallery—The light in his operating room is superior to any ever before had in the place, a double window having been placed in front; by this light he is enabled to take the finest pictures in cloudy as well as in clear weather. He is determined not to be excelled in the superior quality and cheapness of prices of his pictures. Call and examine specimens, and hear the prices. The most favorable time for obtaining good pictures of children is from 8 to 12 o'clock, in clear weather. Bark dresses are preferable for producing a good effect in the pictures.
