THE subscriber now offers to the farmers of Lancaster and adjoining counties, one of the best combined machines in use. It has stood the test for five years, giving entire sati-faction to all who have used it. It is capable of cutting from ten to fifteen acres of grass or grain per day, with one pain of horses—Lewis Curts, of Salem, is withing to qualify that he has cut twenty-one acres of grass with one team of horses in one day. Hundreds of other manes could be got if it were necessary. This machine was sold lost year in this and oth reconnies; also, extensively in New-York and New Jersey, and was preferred above all other machines wherever used, both for renping and mowing. It has been used from year to year with less repair than any other machine. Owing to the scarcity of money the price has been reduced from last year; so that any farmer can now secure one of the best machines that can be produced. The agents who sell these machines are persons who have used them, and are willing to recommend them to other farmers, who are the best judges of the machines—not mere agents selling for a per centage, and withing to cram anything down the throats of farmers. Great American Horse-Taming Secret.

For Tuming Horses and Breaking Colls. THE undersigned, proprietor of the above celebrated secret for tuning wild and vicious horses and breaking young colts, hus been induced, by numerous friends, to offer the same to the American Public, at a price within the reach of all. By the use of it the most wild and vicious horse can be perfectly subdued in fliteen minutes, and young colts broken in a few days. It is hermless to the horse and free from dancer in amplying it.

few days. It is harmless to the horse and free from danger in applying it.
The great motivity and success Mr. Rerey has obtained for his method, as practiced before the Courts of England and France, render further notice in an advertisement unnecessary. Every horseman must be already familiar with it and no farmer, owner of a colt or horse, should be without it.
The secret has been thoroughly tested in New York before a competent committee of horsemen, and approved.
