THE subscriber now offers to the farmers of Lancaster and adjoining counties, one of the best combined machines in use. It has stood the test for five years, giving entire smitsherion to all who have used it. It is capable of cutting from ten to fifteen acres of grass or grain per day, with one pair of horses—Lewis Curts. of Salem, is willing to qualify that he has cut twenty-one acres of grass with one team of horses in one day. Hundreds of other names cou able got if it were necessary. This machine was sold last year in this and other counties; also, extensively in New-York and New Jersey, and was pretered above all other machines wherever used, both for reaping and mowing. It has been used from year to year with less repair than any other machine. Owing to the scarcity of money the price has been reduced from last year; so that any furmer can now secure one of the best machines that can be produced. The agents who sell these machines are persons who have used them, and are willing to recommend them to other farmers, who are the best judges of the machine—not mere agents selling for a per centage, and willing to cram anything down the throats of turners. These machines are made at my shop, at Bound Brook. New Jersey, where I have constantly on hand Horse Powers, Corn Shelters, Cultivators, and all kinds of Farming Implement.

For Taming Horses and Breaking Colts.

Till undersigned, proprietor of the above celebrated secret for tuning wild and vicious horses, and breaking young colts, has been induced, by numerous friends, to offer the same to the American Public, at a price within the reach of all. By the use of it the nost wild and vicious horse can be perfectly subdued in fifteen minutes, and young colts broken in a few days. It is harmless to the horse and free from danger in applying it.

The great notoristy and success Mr. Rarey has obtained for his method, as pructiced before the Courts of England and France, render hirther notice in an advertisement, unnecessary. Every horseman must be already familiar with it, and no farmer, owner of a colt of horse, should be without it.
