The New York Tribune, 1858, '59.

THE New York Tribune, now more than seventeen years old, which was the first journal in the world that appeared regularly on an imperial eight-page sheet at only a penny, and which has attained the unparalleled aggregate of more than 200,000 subscriptions, respectfully gives its share of the patronage which the Metropolitan Press is henceforth to receive.

Within the present year The Tribune has provided itself with a new and faster Press, at a cost of $10,000, merely that some of our subscribers may receive their papers a mail earlier than they otherwise might do With correspondents at the most important points throughout the civilized world, and a staff of writers chosen from among the best in the country, we believe that even those who dislike the politics of our sheet concede to it frankness in avowing its convictions and ability in maintaining them. We appeal then, to those who believe that an increased circulation of The Tribune would conduce to the political, intellectual and moral well-being of the Republic, to aid us in effecting such increase

The Daily Tribune is printed on a large imperial sheet, and published every morning and evening, (Sunday excepted), and mailed to subscribers for six dollars per annum in advance, $3 for six months

The Semi-Weekly Tribune is published every Tuesday and Friday, and contains all the Editorials of the Daily with the Cattle, Horse and General Markets reliably reported expressly for The Tribune; Foreign and Home Correspondence and during coming session of Congress it will contain a summary of Congressional doings with the more important speeches. It will also contain a first-class novel, continued from number to number thus affording a first-rate family news-paper to those who prefer not to take a Daily.

BY ROYAL LETTERS PATENT.

JOHN FELIN, Sole Agent, Columbia, Pa.

HERTS, BROTHERS',

AMALGAMATED IRIDIUM, ZINC AND PLATINA PENS.

WARRANTED NOT TO CORRODE.

HERTS, BROTHERS, having been many years engaged in the manufacture of Metallic Pens and during that time having devoted their unceasing attention to improving and preventing that useful and necessary article—the result of their unceasing efforts and numerous experiments, has been the construction of a pen, on a principle entirely new, combining all the advantages of the elasticity and cleanness of the quill with softness the durability of the steel pen and thus entirely covering the only objection that has hitherto existed against the use of steel pens.

This pen will be found an invaluable article in Offices, as they never need wiping also to Banks and Schools as they will not spatter, nor cut the thinnest paper, and are warranted anti corrosive.

CAUTION—The universal celebrity of these Pens having induced certain disreputable Makers to foist on the public a spurious imitation, it will please be observed that each genuine pen is stamped "Herts, Brothers' Patent, 1-57" and each box of genuine pens will contain a label with a fac-simile of the Manufacturers' name

☞May be had wholesale, at the Principal Depot, 241 Broadway, New York, and Retail from all Respectable Stationers in England, France, and the United States.

☞Price 37½ cts. per dozen—$2 25 a box.
