The Susquehanna and Vigilant Com-

parade, and the officers to arrange for the which promise amusement. We have not sition of their respective Companies in the procession. We have that the turn out of the Com-

panies on the 22nd will be general, and the procession worthy the occasion and the participants.

We have but little to say in reference to the approaching one of the two great American birth-days, that has not been before more elequently expressed by thousands of tongues and pens. The birth-day of the Nation, although not always fitly celebrated, is still ever the occasion of some expression of rejoicing, and its observance SEE NEW ADVERTISEMENTS OF A. M. as a holiday will endure while this Nation stands. The birth-day of the Futher has not always been equally reverenced. It sometimes passes without public expression of rejoicing; all that we, as a people, owe Mr. Jas. Patton's property, inserted last to Washington-our very existence as a people--forgotten, or the recollection pushed only 130 feet deep, whereas it runs back 140 earclessly aside. But in no man's heart can the veneration and enthusiastic love of lessons, have entirely died! It needs but a word to rouse the slumbering patriotism, and a proper opportunity to insure its pubtoo many working days and too few holidays in the year. It becomes us then to take able collection. advantage of every day that can be snatched from the rush and struggle of our daily

ism while we wish them pleasure, satisfac-

tion and success, in their proposed display.

Address of the Committee

Appointed by the Historical, Agricultural and Mechanics Institute of Lancaster County, to make arrangements for holding Pills, by return mail.

Torsale by D. E. B. HERR, Agent, for Columbia a Horticultural, Floral and Mechanical Ex hibition at Fulton Hall in June next.

He that makes two blades of grass grow where but one grew before, is a benefactor of stores. It speaks for itself, and it is un- to mankind; and he that contributes to the necessary to say one word farther in com- excellence of art-genius helps to exalt humanity, and becomes a shining light to his co-laborers who are beating the track of hontrades. For the developement of these things and to nurture them into their highest state of usefulness, was established the ing in December last it was resolved that an invigorated for Life by this Splendid Dyc.

We deem it unnecessary to descant upon the previous efforts of this nature in our midst. but we feel assured that at the present time there is abundant talent, genius, bandieraft, of disease-hence taste, refinement and the spirit of honorable competition, existing within and around us, to insure such a display of the various Dalley's Magical Pain Extractor.

Dalley's Magical Pain Extractor. ture, finds many able devotees within our man-m, scald Head, Salt Rheum, Baldness, Erysipethermometer about one foot from the stove and found the heat to be 133 deg; another county, and has already signalized itself in has, Ringworm. Barber's Itch, Small Pox, Measles organized progress.

Mechanic art, for want of proper stimulus, bility and usefulness. In this we deem it and every one applying a perfect antidote to its opporight to say that nothing but meritorious specimens will receive the approbation of min effects is magical, because the time is so short about the same quantity of fuel and heated to the same degree with his improvement and no departure from this line of duty No Pam Extractor is genuine unless the box ha

it. We are thus explicit in this department because we feel assured that Lancaster can compete with any, other place, in the manufacture of such things as she publishes to the country she can furnish. Thus, our mechanics will arouse their faculties and bring to the shrine of excellence their best and choicest products. In the Fine Arts we inare elegant, light, casy and durable.

Tunng to a charm-notating up behind-no shrink clude mainly those things which are wrough: by the plastic fingers of our talented women, where these things are properly underembracing the whole domain of fine arts: needle, pencil, distaff, knife and chisel, chirography, and last but not least, bread, cakes and condiments, and what else their spirit and genius may invent and construct.

To say more on this subject would be superfluous. It is enough for our people to know that the Institution under whose auspices this exhibition is to be given, is part and parcel of themselves-being composed of hundreds of members from every part of the county, and therefore the proper nedium through which our local progress

hould find its conservatory.

A circular, setting forth the order of armagement which is to govern this exhibi-
