HERTS, BROTHERS', AMALGAMATED IRIDIUM, ZINC AND PLATINA PENS.

WARRANTED NOT TO CORRODE.

HERTS, BROTHERS, having been many years engaged in the manufacture of Metallic Pens and during that time having devoted their unceasing attention to improving and perfecting that special and useful article—the result of their unremitting efforts and numerous experiments has been the construction of a pen on a principle entirely new combining all the advantages of the elasticity and cleanness of the quill, with soundness the durability of the steel pen, at the same time entirely obviating every objection that has hitherto existed against the use of steel pens.

This pen will be found an invaluable article in Offices, as they never need wiping; also to Banks and Schools, as they will not splutter, nor cut the thinnest paper, and last a number of years. And we desire to give CAUTION—The universal celebrity of these Pens having induced certain unscrupulous Makers to foist on the public a spurious imitation, it will please be observed that each genuine pen is stamped Herts, Brothers' Patent 15,622" and each box of genuine pens will contain a label with a fac-simile of the Manufacturers' names.

☞ May be had wholesale, at the Principal Depot, 91 Broadway, New York, and Retail from all Respectable Stationers in England, France, and the United States.
