GLASS STEAM ENGINE, New Exhibiting in the room adjoining Felix's Jewelry Store. Front street, Columbia, Pa. Open on Saturday, Monday and Tuesday afternoons

Open on Saturday, Monday and Tuesday internoons and evenings.

The Steam Engine is most interesting, being manufactured entirely of glass. It is a Working Beam High Pressure Engine, and from the material use in its construction shows plainly the principle of the steam engine. The working of all the valves is visible.

The curious process of Glass Blowing is fully shown, and beautiful articles made during the exhibition Admission 15 Cents.

# "ALL THE YEAR ROUND." DICKENS' NEW WEEKLY.

DICKENS' NEW WEEKLY.

We have the pleasure of announcing that we have entered into arrangements with Charles Dickens, for the issue of his new publication, entitled, "All the Year Round," each week, in New York, simultaneously with its issue in London, plates being taken from the English edition, and forwarded to us sufficiently in advance of publication for that purpose. The first number will appear in London and New York on Wednesday, May 4th, and will contain the commencement of a new story by Charles Dickens, to be continued from week week during about eight months.

Thus, it will be seen that American readers of "All the Year Round," will obtain the stories and other contributions of Mr. Dickens, and the staff of writers associated with him. embracing an array of distinguished talent with which no other publication can compare, several weeks in advance of their reaching this country through ordinary sources, and at the same time they are given to the public in Lon-

don.

We will state that this arrangement has been consummated by the payment of a large sum of money to Mr. Dickens, yet the extraordinary interest which the announcement of the publication has excited in literary circles, the assurance which Mr. Dickens has given that he shall devote to it all of his best energies, and the appearance of a new story from his pen, cannot fail to command for it at once

a large circulation.

The following announcement from Mr. Dickens, will convey an idea of the character and auns of the work:

ADDRESS.

Nine years of Household Words are the best assurance that can be off-red to the public of the spirit and objects of "All the Year Round." In transferring myself, and my strongest energies, from the publication that is about to be discontinued, to the publication that is about to be begun, I have the happiness of taking with me that staff of writers with whom I have labored, and all the literary and business co-operation that can make my work a pleasure. In some important respects, I am now free greatly to advance on past arrangements. Those I leave

That tusion of the graces of the imagination with the realities of life, which is vital to the welfare of any community, and for which I have striven from week to week as honestly as I have striven from week to week as honestly as I could during the last nine years, will continue to be striven for, "all the year round." The old weekly cares and duties become things of the Past, merely so be assumed, with an increased love for them and brighter hopes springing out of them, in the Present and the

I look, and plan, for a very much wider cir-I look, and plan, for a very much wider circle of readers, and yet again for a steadily expanding circle of readers in the projects I hope
to carry through "all the year round." And I
feel confident that this expectation will be realized, if it deserves realization.

REAL ESTATE.

The task of my new journal is set, and it will steadily try to-work the task out. Its pages shall show to good purpose their motto is remembered in them, and with how much of idelity and earnestness they tell The Story of our Lives from Year to Year. our Lives from Year to Year. CHARLES DICKENS.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases to afford an effective antitote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiments and the west server to be found.

iment on many of the worst cases to be found of the following complaints:—
Scrofula and Scrofulous Complaints, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUNORS, SALT RHILLY, SCALD HEAD, SYPHILIS AND SYPHILITIC ATTECTIONS, MERCURIAL DISEASE, DROPSY, NEU-RALGIA OR TIC DOULOUREUX, DEBILITY, DYS-PEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF

THE BLOOD.

This compound will be found a great pro This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body this through the natural chainless of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt prople enjoy better health, and live you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

hie is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

contain but little of the virtue of Sarsaparina, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparille, but often no curative proporties whater. rilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the Sarsaparilla when hood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

## PREPARED BY DR. J. C. AYER & CO. LOWELL, MASS. Price, 81 per Bottle; Six Bottles for \$5. Ayer's Cherry Pectoral,

has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be reked on to do for their relief all it has ever been found to do.
