Those in want of valoable standard works, for the improving of a well-selected library, will find it to their great advantage to call and examine the extensive stock on hand. My object and wish is, as it always was, to supply the wants of the community with anything in my line, on the most reasonable terms possible. This we find the better and most advantageous course for all parties. The Political Economist tells as "the cheaper an article is, the more universally it can and will be used." Then the conclusion is, that when we hay cheap, we must sell theap, simply allowing ourselves a reasonable profit.
