TEXTE **NEW YORK MERCURY** FOR SATURDAY, JUNE 25, 1859,

(REA_Now ready at all the News Depots and bookstores,) Will contain the initial chapters of a new

Western Tale, from the graceful and felicitous pen of

DR. J. H. ROBINSON, who has been engaged to write exclusively for that journal for a term of years.

This story is entitled "PATHAWAY;

THE MOUNTAIN GUTLAWS: A TALE OF THE NORTHERN TRAP-PING GROUNDS:"

And is considered by the Author to be the very best work which his talent has yet produced.

Those who know the dramatic power and Elegant Style, the interesting situations and Beauty of Incident, which have rendered

famous all the writings of the AUTHOR OF "BUCK BISON," cannot but hail with delight this new ema-

nation from his pen. The Trapping Grounds of the North and West,

form a peculiarly favorable field for the location and working out of a romance, and the characters that roam through that Flowery Wilderness are especially fitted for introduction into its pages. The readers and admirers of

DR. ROBINSON'S WRITINGS will remember with pleasure the character of

"NICK WHIFFLES," in a story of that name, recently published,

and will be glad to learn that the same personage will figure in

PATHAWAY,

surrounded as ever with many "Diffikilties," and lending to the romance a vein of sympathetic humor and quaint drollery that will render it irresistible to the lover of fun and the student of human nature.

In addition to this attraction, the plot will be found more Intricately Mysterious, and the situations more replete with the fire of Dromatic Interest, than in any other story the author has yet written. It is full of

WILD LIFE & ACTION, crowded with stirring incident and

Perilous Adventure,

and through the whole story runs an underplot which interweaves a Golden Threaded Woof of sentiment, tinting all with the ragiant light of the Gentle Charm of Love. The most exciting and picturesque scenes of

PATHAWAY.

"ALL THE YEAR ROUND." DICKENS' NEW WEEKLY.

E have the pleasure of announcing that we have entered into arrangements with Charles Dickens, for the issue of his new publication, entitled, "All the Year Round," each week, in New York, simultaneously with its issue in London, plates being taken from the English edition, and forwarded to us sufficient-ly in advance of publication for that purpose. The first number will appear in London and New York on Wednesday, May Ith, and will contain the commencement of a new story by Charles Dickens, to be continued from week

to week during about eight months.

Thus, it will be seen that American readers of All the Year Round," will obtain the stories and other contributions of Mr. Dickens, and the staff of writers associated with him, embracing an array of distinguished talent with which no other publication can compare, several weeks in advance of their reaching this country through ordinary sources, and at the same time they are given to the public in London.

lon. We will state that this arrangement has been consummated by the payment of a large sum of money to Mr. Dickens, yet the extra-ordinary interest which the announcement of the publication has excited in literary circles, will be chosen as the themes for a series of assurance which Mr. Dickens has given that he shall devote to it all of his best energies, and the appearance of a new story from his pen, cannot fail to command for it at once

a large circulation.

The following announcement from Mr. Dickens, will convey an idea of the character

and aims of the work:

ADDRESS.

Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove

of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by exper-

iment on many of the worst cases to be found of the following complaints:—
Scrofula and Scrofulous Complaints,

Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body

by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities

bursting through the skin in pimples, eruptions

or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell

you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something

must go wrong, and the great machinery of life is disordered or overthrown. Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed

for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else.

During late years the public have been mis-

During late years the public have been lines led by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Sarsaparilla which flood the market, until the

Mesers, Evans & Watson.—Gentlemen—It affords to the highest satisfaction to state to you, that owing in the very protective qualities of two of the Sulismander Sales which we purchased of you some few months since we saved a large portion of our Jewelry, and all our books, papers &c, exposed to the calminious fire in Ranstead Place, on the morning of calaminous fire in Ransie al Place, on the morning of the 11th rostant.

When we reflect that these Safes were located in the fourth story of the building we occupied, and that they fell subsequently into a heap of busing roms, where the vastconcentration of heat caused the brasplates to melt, we cannot but regard the preservation of their valuable contents as anost convincing proof of the great security afforded by your Safes.

We shall take pleasure in recommending them to men of business as a sure reliance meanist fire.
