Bridgens' County Map.

ON'T forget to get a copy of this map. ONT forget to get a copy of this map, educated on the county have been familiar for many years. It has been embelished with views and plants, which addsomewhat to its appearance, but it is incomplete and insecurate, and is condemned by every sub-criber. Who has occasion to make use of it as a reference. Nowithstanding the pains that others have taken to materpresent my intentions, in order, at the present upon to amounce that considerable progress has already been rande with the surveys, and that it is not (as represented) my intention to abandon my present undertaking of geiling up a map of Lancaster county. The work when finished will be a faithful dopograpient representation of the whole county, and H. F. BRIDGENS, Publisher.

delahin by Rulfond in one State of New Jersey Soil among the best for Agricultural purposes, being a good logan soil, with a clay holion. The land is a large tract, divided into small farms, and handred from all purts of the country are now settling and sailding. The crops produced are large and can be seen growing. The cinmate is delightful, and secure from frosts. Terms from \$15 to \$20 per nere, payable within four years by instalments. To visit the place—Leave Vine street wharf at Philadelphia at 74 A. M. by Railrond for Hammonion, or address R. B. tracs, by install the products of the country of

rich soil, and secure from flosts. See alvertisement of Hammonton Lands in another column. July 2, 1859-6m

A CARD.

A WING been repeatedly complained to by conzens of Co-unbraund Wright-wille in regard to the frouds commuted by hoys, heddlers of Vegetables. Betries, &c., who represent their worthless and inpalantable wares as the product of the Hillside Garden, in my own defense and is a protection to the public. I would state that I have engaged no person or persons to hawk partially and structure of any kind through the stricts up to this time. I continue a the action is the deliver Vegetable & &c. to persons previously and it deliver Vegetable with the ferentier, althorskeine from my garden will be delivered in taskets or vessels plainly marked on the sides with my name.

346 & 348 Broadway, N. Y.

ELIAS BARR & CO.,

New Agricultural Settlement. TO ALL WHO WANT FARMS.

A RIRE opportunity in a delightful and healthy climate 25 miles southeast of Philadelphia, on the Camden and Atlantic Railroad, New

neutraly climate 2s mines southeast of rimoerphia, on the Camber and Atlantic Raifroad, New
Jersey.

An old estate consisting of several thousands of
acres of productive soil has been divided into Farms
of various sizes to suit the purchaser. A population
of some fifteen hundred, from various parts of the
Middle States and New-England have settled the past
year, improved their places, and raised excellent
ecops. The price of the land is at the low sum of \$15\$
to \$20 per acer, the soil is of the b t quality for the
production of Wheat, Clover, Corn, Peaches, Grapes
and Vegetables. It is considered the best Fruit Soil
in the Union. The place is perfectly secure from
frosts—the destructive enemy of the farmer. Crops
of grain, grass and fruit are now growing and can beseen, By examining the place itself, a correct judgment can be formed of the productiveness of the land.
The terms are made easy to secure the repait improvement. The result has been that within the
past year, some three hundred houses have been
receted, two mills, one steam, four stores, ome forty
vineyards and Peach orchards, planted, and a large
number of other improvements, making it a desirable
and active place of husiness.

THE MARKET.

THE MARKET,
as the reader may perceive from its location, is the
Best in the Union.
Produce bringing double the price than in locations
nway from the city, and more than double the price
than the West. It is known that the earliest and
best fruits and vegetables in this latitude come from
New Jersey, and are annually exported to the extent
of millions.

New Jersey, and are unually exported to the extent of milions.

In locating here, the settler has many advantages. He has mind a few hours ride of the great cines of New England and Middle States, he is mear his old friends and associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can hay every arriels he wants at the changest price, and sell his produce for the highest, (in the West this is reversed, he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are afterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mile at the rate of \$10 to \$15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantage of the changer.

Union where buildings and improvements can be made cheaper. The reader will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is it was never thrown in the market; and unless these shitements were correct, no one would be invited to eximine the land before purchasing. This all are expected to do. They will see land under cultivation such is the extent of the settlement that they will no doubt, mert persons, from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daity trains to Philadelphia, and to all settlers who improve, the Raufroad Company gives a free tecket for six mouths, and a half-price ticket for three years.

ALL wanting farms in a delightful climate, for three years.

THE TOWN OF HAMMONTON.

THE TOWN OF HAMMONTON.

THE TOWN OF HAMMONTON.

In connection with the agricultural settlement, a new and thriving town has naturally ari en, which presents inducements for any kind of loaniess paraneularly stores and manufactories. The Shoe hustness could be carried on in this piace and market to good advantage also cotton business, and manufactories of agricultural implements or foundars for casting smacl articles. The improvement has been so rapid as to manufactories of our times account and permanent increase of our mess. Town lots of a good size we do not self-size allowed as a warm, affect the improvement and the contest of the case as a warm, affect the improvement. crease of our mess. Town lots of a good size we do not self-size of ones as in women effect the improvement of the piger, can had at from \$400 and agovards. The eliminous permission monetally used as a consistence of the forms theoretically a creating a strength of the forms theoretically and strength of the forms the strength of th

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon will visit the iniquities of the fathers upon

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that screfulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consestand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

and, indeed, or all the organs, arise from or are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must reno the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Enuprive and Skin Dislases, St. Anthony's Fire, Rose, or Envirena, Pimples, Pustulis, Blotches, Blains and Bolls, Tuxons, Tetter and Say Business Scale Head Response. BLOTCHES, BLAINS and BOILS, 1 CAGON, AND AND ASSESSED HEAD, RINGWORM, RHEUMATISM, SYPHILITIC AND MERCURIAL DISEASLS, DROPSY, DYSPERSIA, DEBLITY, and, indeed. ALL COMPLAINTS ARISING FROM VITTALISM. TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

Ayer's Cathartic Pills. FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

contaminated constitutions.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness Croup, Bronchitis, Incipient Consump-tion, and for the relief of Consumptive Patients in advanced stages of the

disease.
So wide is the field of its usefulness and so nu So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmon ry organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

be forgotten.
