Bridgens' County Map.

The Map just assered as but a parched up edition of an old once with which the inhubitants of the county have been familiar for many years. It has been embellished with views and plans, which addsomewhat to its appearance, but it is incomplete and marconair. But it condetnated by every subscriber who has occasion to make use of it as a retreance. Notwithstanding the pains that others have taken to misrepresent my imentions, in order, at the present time to accomplish their own ends. I beg leave respectfully to amounce that considerable progress has already been made with the surveys, and that it is not (as represented) my intention to abundon my present undertaking of getting up a map of Lancaster county. The work when finished will be a faithful topograpical representation of the whole county, and shall not, after delivery, share the justly merited fate of others in being condemned by the public as being an imposition.

A CARD.

If AVING been repeatedly complained to by elizens of Columbia and Wrightsville in regard to the frunds committed by boys, peddlers of Vegetables, Betries, &c., who represent their worthlers and unpalatable wares as the product of the Hillside Garden, in my own defense and as a protection to the public I would state that I have engaged no person or persons to hawk produce of any kind through the streets up to this date. I continue, as heretofore, to deliver Vegetables, &c., to persons proviously ordering them, and as a safeguard hereafter, all marketing from my garden will be delivered in backets or vessels plainly marked on the sides with my name.

New Agricultural Settlement. TO ALL WHO WANT FARMS. RIRE opportunity in a delightful and

callby climate 25 miles southeast of Philadel-on the Camden and Atlantic Railroad, New phia, on the Cambon and Atlantic Railroad, New Jercy.

An old estate consisting of several thousands of neres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some fifteen hundred, from various parts of the Middle Staues and New England have settled the past year, improved their places, and raised excellent crops. The price of the land is at the low sum of \$15 to \$20 per nere, the soil is of the best quality for the production of Whent, Clover, Corn, Peaches, Grapes and Vezetables. It is considered the best Froit Soil in the Union. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been, that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of hasiness.

THE MARKET,

as the render may perceive from its location, is the Best in the Union.

Produce bringing double the price than in location.

Best in the Union.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and heat fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

New Jersey, and are annually exported to the extent of militions.

In locating here, the settler has many advantages, the is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a settled country where every improvement of confort and civilization is at hand. He can hay every surfice he wants at the chappen price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are unterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of \$10 to \$15 per thousand. Bricks from the brick vard opened in the place, every article can be procured in the place, good curpenters are at hand, and there is no place in the Union where buildings and improvements can be made chapper.

The reader will at once be struck with the advantage of the place of the place of the place.

mide cheaper.

The render will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and onless these statements were correct, no one would be invited to statements were correct, no one would be invited to examine the land before purchasing. This sail are experied to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; they will wintess the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and he ready to purchase, as locations cannot be held on refusal. There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a free ticket for ext mouths, and a half-price ticket for three years.

andie, in which we have h that can be mode. It is a concentrated extra-of Para Sarappoilla, o combined with othsubstances of still greater alterative power a to afford an effective autidate for the diseases Saraparilla is reputed to cure. It is believed that such a remedy is wanted by those who that such a remedy is wanted by those whe suffer from Strumous complaints, and that on, which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—
SCHOPTLA AND SCHOTLIOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILES AND SYPHILEIT AF-

SCALD HEAD, SYPHILIS AND SYPHILITIC AF-SCALD HEAD, SYPHILIS AND SYPHILITIC APPRECTIONS, MERCURIAL DISEASE, DROPSY, NEU-BALGIA OR TIC DOULOUREUX, DEBILITY, DYSPERSIA AND INDIGESTION, ERYSPIPLIAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD. This compound will be found a great pro-

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life ideordered or exercitory. nust go wrong, and the great machinery of ife is disordered or overthrown. Sarsaparilla has, and deserves much, the

reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

or any tuning eise.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sansaparilla for one dellar Most of these have been frauds upon the sick, for they not only contain little, if any, Sansapara rilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the maket, until the Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete cradication from the system, the remedy should be indiciously taken a coading to directions on be judiciously taken according to directions on
