stons along with them, can be furnished meals convenient to the ground.

At suitable times the glee club will entertain the andience with vocal music.

Come friends, the evils of intemperance are great among us, and widening every year. The experience of the last four years has demonstrated that neither the "License System," nor "the letting alone" poncy, will lesse or extinguish the evil. And it is full time that families, whose happiness is being destroyed—whose fathers, brothers and sisters are fulling victims to this vice—that lax payers who have to bear and to pay the increasing burden of crime and papperiem, produced by the ram traffic, should counsel together.

Tickets on the Railroad from Harrisburg and Downingtown, and all intermediate stations, will be issued at half fare; and two trains in the morning and evening, will stop at the ground to take on and leave off passengers.

Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the injouties of the fathers upon

will visit the iniquities of the fathers upon their children." Its effects commence by deposition from the the energies of life, so that scrofulous constitu-tions, which, in tions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; conscquently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which desystem. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain,

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine and inthe blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affec-tions which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, and Skin Diseases, St. Anthony's fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blotches, Blans and Bolls, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rhedmatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitables, all Complaints arising from Vitables, Policy and Policy TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
