Bridgens' County Map. ONT forget to get a copy of this map.

The Man just useful discount a parent of the particle of an old one with which the intainitions of the county have been fauntiar far many years. It has been emit einhed with views and plans, which add samewhat in a paperionnee but it is incomplete and innecturate, and is condemned by every subscriber who has occasion 12 make use of it as a reference. Notwithstanding the points that others have taken to misrepresent my mentions, in order, at the present time to accomplish their own ends. I beg leave respectfully to announce that considerable progression and (as represented) my intention to alundou my present undertaking of getting up a map of Lancaster county. The work when finished will be a faithful topograpical representation of the whole county, and shall not, user delivery, share the justy merited fate of others in being condemned by the public as being an imposition.

H. F. BRIDGENS, Publisher

July 2, 1839-3m

New Agricultural Settlement. TO ALL WHO WANT FARMS. RIRE opportunity in a delightful and healthy climate 25 miles southers tof Philadel-phia, on the Cumden and Atlantic Railroad, New

phia. on the Camden and Atlantic Railroad, New Jerrey.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some fifteen hundred, from various matts of the Middle States and New England have settled the past year, improved their places, and raised excellent crops. The price of the land is at the low sam of \$15 to \$20 per uerr, the soil is of the best quality for the production of Whent, Clover, Corn, Peaches, Grapes and Vegetables. It is considered the best Fruit Soil in the Union. The place is perfectly secure from from the defructive enemy of the inviner. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the tand, which is only soil for actual improvement. The result has been than which the past year, some three hundred houses have been exceed, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of insiness.

THE MARKET,

as the reader may perceive from its location, is the less to the Inion.

as the reader may perceive from its location, is the Best in the Union.

Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and heat fruit and vegenibles in this latitude come from New Jersey, and are annually exported to the extent of militons.

New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. In locating here, the settler of the great cities of New England and Middle Statos, he is near his old friends and associations, he is in a settled country where every improvement of comfort and eiviligation is at hand. He cam buy every strictle he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed, he has achools for his children, divine service, and will enjoy an open winter, and delightful climate, where fevers are unterly unknown. The result of the change upon those from the horth, has generally been to restore them to an excellent sinte of health.

In the way of building and improving, lumber can be obtained at the mile at the rate of \$10 to \$15 per thousand. Bricks from the brick vard opened in the place, every article can be procured in the place, good expenters are at hand, and there is no place in the union where buildings and improvements can be made cheaper.

The reader will at once be arruck with the advantage and the content of the care of the arruck with the advantages and improvements can be made cheaper.

Union where buildings and improvements can be made chapper. The reader will at once be struck with the advantages bere presented, and ask himself why the property has but been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under calibration such is the extent of the seulement that they will no doubt, mert persons, from their own neighborhood, they will witness the improvements and c. aljudge the character of the populations. If they come with a view to settle, they should come prepared to stay a diny or two and to ready to purchase, as locations enduous held on refusal. There are two daily trains to Philadelphia, and to all estilects who improve, the Railroad Company gives to see to take for six mouths, and a half-price ticket for the extention of the DAMMANTON.

THE NEVENTH OF SI-PTEMISER.

IT For Caralogues, address the Fresident.

سناه, or King's Evil constitutional disease, a corruption of the

t by which this fluid becomes vitiated, as, and poor. Being in the circulation, it rvades the whole body, and may burst out disease on any part of it. No organ is free rom its attacks, nor is there one which it may nom its attacks, nor is there one which it may not destroy. The scrofulous taint is variously noused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venercal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon will visit the iniquities of the fathers upor

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to with-stand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulo is in their nature, are still rendered fixed by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

re aggravated by the same cause. one quarter of all our people are serofulous; their persons are invaded by this lucking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and inrigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-pined from the most active remedials that have bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERCPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, ROSE, OF ENYSIPPLAS, PINTLES, PUSTULES, BLOTCH'ES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISLASES, DROPSY, DYSPERSIA, DEBILITY, and, andeed, ALL COMPLAINTS ARISING FROM VITATIO OR IMPURE BLOOD. The popular belief TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rills is to purify and regenerate this vital fluid, without which sound health is impossible in

contaminated constitutions.

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIC, FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleaned, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanae,

dangerous diseases. The agent below named is pleased to farmish gratis my American Almanae, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Heatharn, Headache arising from disordered Stomoch, Nausea Indigestion, Pain in and Morbid Inaction of the Boness, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction c'its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the

disease. So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country allounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the pulling the longer besitate what antidote to employ for the distressing and dangerous affections of the military of organs that are incident to our climate. It organs that are incident to our climate, we inferior remedies throat upon the country of the failed and been discarded, this that distributed he earlied and been discarded, this in the distribute is no numerous and too remarkable to 15 failed. So wide is the field of its usefulness and so nu-
