MELONS, FRUIT, &c.

THE subscriber invites attention to the stock of Watermelons, Cantelopes, Peaches, &c., always kept on hand, in season, at his depot, under his office, Second Street, next to the Lutheran Church.

Everything is fresh and of good quality. He asks the public to give him a call.

Aug. 27-3t J. H. HUNTER.

The New American Cyclopædia.

REASONS FOR BUYING IT, AND THE WAYS AND MEANS OF BUYING IT

THE New American Cyclopedia is popular without being superficial, learned but not pedantic, comprehensive but sufficiently detailed, free from personal pique and party prejudice, fresh and yet accurate. It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially written for its pages by men who are authorities upon the topics of which they speak. They are required to bring the subject up to the present moment; to state just how it stands now. All the statistical information is from the *latest* reports; the geographical accounts keep pace with the latest explorations; historical matters include the fre-hest gust views; the biographical notices not only speak of the dead, but also of the living.

And the work is *cheap*: three dollars a volume; and each volume contains more—we have carefully computed the contents of both—more than the whole six volumes of Bancroft's history, which are sold at two dollars a volume, making in all twelve dollars. Every family ought to possess a copy of the New Cyclopædia as a library in itself. Let each man save twenty-five cents a week, and by the time the work is complete he can not only own the fifteen volumes, but also a handsome book case to keep them in. Save a half-dime a day, (a little self-denial will do it) and you save enough to buy a set of books which will give you sound information upon all points about which you wish to inquire. School children—certainly the members of our High Schools—can all have it. Save the pennies which are given to you, run errands and "do chores" when you can, and thus earn a quarter of a dollar a week—and the task is done. Mechanics you have not much time to read; this, then, is just the work for you; it will help you upon all points of inquiry, and three hours' over-work per week will buy it. Lawyers, Physicians, Clergymen! it will give breadth and accuracy to your information, and add largely to your influence and income.

THE NEW CYCLOPEDIA!

(3 VOLUMES NOW READY.)

Will be completed in 15 volumes, royal 8vo, $3 per volume, in cloth; $3 50 in library leather; $4 half *morocco; $4,50 half Russia extra.*

ELIAS BARR & CO.,

Booksellers and Stationers, Lancaster, Pa.

Suffer no longer with Corns.

AT the Golden Mortar Drug Store you can procure an article which is warranted to remove Corns in 48 hours, without pain or soreness.

A CARD.

HAVING been repeatedly complained to by citizens of Columbia and Wrightsville in regard to the frauds committed by boys, peddlers of Vegetables, Berries, &c., who represent their worthless and unpalatable wares as the product of the Hillside Garden, in my own defense and as a protection to the public I would state that I have engaged no person, or persons to hawk produce of any kind through the streets up to this date. I continue, as heretofore, to deliver Vegetables, &c., to persons previously ordering them, and as a safeguard hereafter, all marketing from my garden will be delivered in ba-kets or vessels plainly marked on the sides with my name.

S. H. PURPLE

Hillside Nursery and Garden, June 30, 1859.

FIVE DOLLARS REWARD.

WILL be paid for the arrest and conviction of any person selling stale or unmarketable Fruit, Berries, or Vegetables, on the false pretence that they have been sent out by me for sale, or that they were raised at the Hillside Nursery and Garden.

S. H. PURPLE.

Columbia, July 9, 1859.

Bridgens' County Map.

DON'T forget to get a copy of this map. The Map just issued is but a patched up edition of an old one with which the inhabitants of the county have been familiar for many years. It has been embellished with views and plans, which addsomewhat to its appearance, but it is incomplete and inaccurate, and is condemned by every subscriber who has occasion to make use of it as a reference. Notwithstanding the pains that others have taken to misrepresent my intentions, in order, at the present time to accomplish their own ends, I beg leave respectfully to announce that considerable progress has already been made with the surveys, and that it is not (as represented) my intention to abandon my present undertaking of getting up a map of Lancaster county. The work when finished will be a faithful topographical representation of the whole county, and build and, after delivery, share the justly merited fate of others in being condemned by the public as being an imposition.

H. F. BRIDGENS, *Publisher.*

July 2, 1859-3m

New Agricultural Settlement.

TO ALL WHO WANT FARMS.

A RARE opportunity in a delightful and healthy climate 25 miles southeast of Philadelphia, on the Camden and Atlantic Railroad, New Jersey.

An old estate consisting of several thousands of acres of productive soil has been divided into Farms of various sizes to suit the purchaser. A population of some fifteen hundred, from various parts of the Middle States and New England have settled the past year, improved their places, and raised excellent crops. The price of this land is at the low sum of $15 per acre. The soil is of the best quality for the production of Wheat, Clover, Corn, Peaches, Grapes *and Vegetables. It is considered the best Fruit Soil* in the Union. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for actual improvement. The result has been that within the past year, some three hundred houses have been erected, two mills, one steam, four stores, some forty vineyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,

as the reader may perceive from its location, is the Best in the Union.

Produce bringing double the price than in locations away from the city, and more than double the price than the West, is known almost the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours rule of the great cities of New England and Middle States, he is near his old friends, associations, he is in a settled country where every improvement of comfort and civilization is at hand. He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed.) He has schools for his children, done away with and will enjoy an open winter, and delightful climate, where fevers are scarcely known. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills on the rate of $10 to $15 per thousand feet. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The whole will at once be struck with the advantages here presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This will are expected to immediately be improved and considerable progress has already been made with the surveys, and that it is not (as represented) my intention to abandon my present undertaking of getting up a map of Lancaster county. The work when finished will be a faithful topographical representation of the whole county, and build and, after delivery, share the justly merited fate of others in being condemned by the public as being an imposition.

READ! READ!! READ!!!

ESENWEIN'S AROMATIC BALSAM,

Is a remedy not to be excelled for the relief and cure of those maladies incident to the summer season, viz: Diarrhœa, Dysentery, Cholera or Cholera Morbus, Vomiting, Acidity of the stomach, etc.

Its excellent carminative powers, pleasant taste and soothing influence, renders it a valuable remedy in Infantile diseases, peculiar to the second summer, viz: Cholera Infantum, etc. It has a reinvigorating and tonic influence on the system, allaying inflamation where it exists in the stomach and bowels—and on trial will be found indispensable to the well being of every family. It will be found as well adopted to Adults as Children.—*Try it.* Prepared only by

A ESENWEIN, Dispensing Chemist.

N. W. cor Ninth & Poplar Sts., Philadelphia.

Price 25 cts. per Bottle.

☞ Sold by H. F Green, and J. S. Dellett & Co., Columbia, and by druggists and storekeepers generally.

May 21, 1859-1y

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and danger
