Scrotula, or King's Evil, is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. This separation, think is vaniously.

not destroy. The scrofulous taint is variously caused by mercarial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children must the third and fourth congestion." indeed unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that serofulous constitu-tions not only suffer from serofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorder, which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain

and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scriofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYERS Compound Extract of Sarsaparilla. the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal mulady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Emberryan and Skin Diseases, St. Anthony's Fire, Rose, or Environs, St. Anthony's Fire, Blottenes, Blains and Boils, Temons, Tetter and Skin Rineral, Scrip Head, Ringwood, Rheemarism, Symilatic and Mercurial Diseases, Diseases, Diseases, Deserva, Deserva, Deserva, and, indeed, all Complaints anising theo Virtated on Impurity of the blood. The particular purpose and virtue of this Sarsapaparticular purpose and virtue of this Sarsapa-rilla is to purily and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a temedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almunac, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite. Janualece, and other kindred complaints, arising from a low state of the Lody or obstruction c'its functions.

disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what amidote to employ for the distressing and dangerous affections of the public no longer hesitate what amidote to employ for the many inferior remedies thrust upon the community have failed and been disearded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
