The New York Weekly has gone up to a circu'anon which places it second in point of circulation in the first of publications of the day. There is but one weekly publication in the world having a far er circulation than the Weekly. The indications are, at present that the circulation of the Weekly will soon reach in a million. Where the newsmen were taking tens, they are now taking hundreds of copies. This is the general effect among the fire theorem News Agents who are now regularly selling the New York Weekly, while from nearly every post office in the contary, we are daily getting subscriptions and orders for specimens.

How and where to get the Weekly. Wherever there is a News Agent, get the paper from him. REASONS FOR BUYING IT, AND THE WAYS AND MEANS OF BUYING IT REASONS FOR BUYING IT. AND THE WAYS AND MEANS OF BUYING IT MHE New American Cyclopedan is popular with I out being superficial. Jearned but not pedantic comprehensive but sofficiently detailed, free from ner-onal pique and party prejudice. Reck and yet accurate. It is a complete statement of all that is known upon every important topic within the scope of human intelligence. Every important article in it has been specially writen for its pages by men who are authorities upon the topics of which they speak. They are required to bring the subject up to the present moment; to state just how it stands note. All the statistical information is from the latest reports the geographical accounts keep pace with the fatest explorations; historical matters include the freshess just views; the biographical notices not only speak of the dead, but also of the living.

And the work is cheap: three dollars a volume; and each volume contains more—we have carefully computed the contents of hoth—more than the whole six volumes of flancroff's history, which are good at two dollars a volume, making in all swelve dollars. Every family ought to poseess a copy of the New Cyclopadin It is a library in itself. Jesteachfman save twenty-five cents a week, and by the time the work is complete he can not only own the fifteen volumes, but also a handsome book cuesto keep them in. Save a half-dime a skay, (a little self-denial will do it) and you sound information upon all points about which you wish to inquire. School-caus all have it. Save the pennies which are given to you, run errands and ido chores? when you can, and thus earn a quarter of a dollar a week— ind the task is done. Micchanned you have not much time to re. st; this, then, is just the work for you; it will help you upon all points of inquiry, and three hours over-work per week will buy it. Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterativ. that can be made. It is a concentrated extracof Para Sarsaparilla, so combined with other substances of still greater alterative power a-to afford an effective antidote for the di-cases Sarsaparilla is reputed to core. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afficted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:

SCROFULA AND SCROFULOUS COMPLAINTS,

SCROFULL AND SCROFULOTS COMPLAINTS, ERUPTIONS AND EREPPIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TEMORS, SALT RIBLEM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULDUREUX, DIRELITY, DYSPERSIA AND INDIGESTION, ENVIRONMENT, ROSE OR ST. ANTHONY'S FIRM, and indeed the whole class of complaints while from Livering class of complaints arising from Impunity or the Broom.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the by an alterative medicine. Cleanse out the vitiated blood whenever you find its impunities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleaning the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsparilla has and deserves much the

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, petending to give a quart of Extract of Sarsaparilla for one dollar. Most af these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative preperties what ver. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become Sarsaparilla which flood the nanket, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of oldony which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.
