The healthy climate 25 miles southenst of Pluhadel phia. on the Camden and Athanic Rolload, New Jercy. An old estate consisting of several thousands of ucres of productive soil has been divided mito Farms of various sizes to soil the purchaser. A population of some fiftern hundred, from various parts of the Niddle States and New England have settled the past year, improved their places, and taked excellent crops. The price of the fund is at the low sum of \$15 to \$20 per nere the soil N of the hest quality for the production of Whent, Clover, Carn, Penchers, Granes, and Vegetables. It is considered the best Fruit Soil in the Unio. The pince of your first secure from froats-the destructive energy of the furner. Crops of grain, grass and fuil are now grawing and can be seen. By examining the place itself a correct jag-ment can be iormed of the productiveness of the land. The terms are made easy to secure the rapid im-provement of the result has been that within the past, year, some there bundred hoases have been ercred; two milds, one steam, four stores, some forty viney ands and Feach orchards, planted and a large number of other improvements, making it a destrable and active place of low inters. Marking it a destrable and active place of low inters. In the location, is the Best in the Union.

Best in the Union. Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the enritest and nest fraits and vrgenthles in this latitude come from New Jersey, and ure annually exported to the extent of multions.

In locating here, the settler has many advantages In incrime here, the setter has many advantages their working of two outservice of the grant curve of their working of two outservices in a settled country where every imposite outservices in a settled country where every imposite outservices are increased in a hand the care buy every strictle on worker at the chargest pitce, and settling produce for the hick-ent (in the West this is reversed) by his schools for his children, dwine service, and will enjoy an open whiter, and delightful charge where fovers are user by unknown. The result of the charge upon those from the north, has generally been to restore them to an excellent state of health. In the way of building and improving, further can be obtained at the mills at the rate of \$100 of \$55 per thousand. Brecks from the brick yard opened in the place, every atticle can be procured in the place, good can penters are at hand, and there is no place in the more there.
