Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMPLY PHYSIC.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy titulities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache arising from disordered Stomach, Nausca, Indigetion, Pain in and Movbid Inaction of the Bovets, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

"ALL THE YEAR ROUND.
DICKENS' NEW WEEKLY.

E have the pleasure of announcing that we have entered into arrangements with Charles Dickens, for the issue of his new publication, entitled, "All the Year Round," each week, in New York, simultaneously with its issue in London, plates being taken from the English edition, and forwarded to us sufficiently in advance of publication for that purpose. The first number will appear in London and New York on Wednesday, May 4th, and will contain the commencement of a new story by Charles Dickens, to be continued from week Charles Dickens, to be continued from wee

to week during about eight months.

Thus, it will be seen that American readers of "All the Year Round," will obtain the stories and other contributions of Mr. Dickens. and the staff of writers associated with him embracing an array of distinguished talent with which no other publication can compare, several weeks in advance of their reaching this country through ordinary sources, and at the same time they are given to the public in Lon-

don. We will state that this arrangement has been consummated by the payment of a large sum of money to Mr. Dickens, yet the extraordinary interest which the announcement of the publication has excited in literary circles, the assurance which Mr. Dickens has given that he shall devote to it all of his best energies, and the appearance of a new story from his pen, cannot fail to command for it at once

a large circulation.

The following announcement from Mr Dickens, will convey an idea of the character

Dickens, will convey an idea of the character and aims of the work:

ADDRESS.

Nine years of Household Words are the best assurance that can be off-red to the public of the spirit and objects of "All the Year Round."

In transferring myself, and my strongest entered from the publication that is about to be ergies, from the publication that is about to be discontinued, to the publication that is about to be begun, I have the happiness of taking with me that staff of writers with whom I have labored, that staff of writers with whom I have labored, and all the literary and business co-operation that can make my work a pleasure. In some important respects, I am now free greatly to advance on past arrangements. Those I leave to testify for therefore, the proportion of the companion of the comp to testity for themselves in due course.

That fusion of the graces of the imagination with the realities of life, which is gital to the welfare of any community, and for which I have striven from week to week as honestly as I could during the last nine years, will continue to be striven for, "all the year round." The old weekly cares and duties become things of the Past, merely so be assumed, with an in-creased love for them and brighter hopes springing out of them, in the Prescut and the

I look, and plan, for a very much wider circle of readers, and yet again for a steadily ex-panding circle of readers in the projects I hope to carry through "all the year round." And I feel confident that this expectation will be real ized, if it deserves realization.

The task of my new journal is set, and it will steadily try to work the task out. Its pages shall show to good purpose their motto is re-membered in them, and with how much of fidelity and earnestness they tell The Story of our Lives from Year to Year.
