"Unquestionably the best sustained Work of the kind in the World." HARPER'S MAGAZINE.

THE most popular Monthly to the world —New York 1 Observer.

No Magazine in Europe or America is so well knowing none has half as many readers; and, we may ansety say, more has received so barge at trinint of admiration from the cultivated classes, that delight in a treatity, diversified, elevating periodical literature. It is the foreness Magazine of the day. The foreness in the foreness Magazine of the day. The foreness may be a few for the more emerging triend, than Hurper's Magazine, —Methodist Probressit, (Bultumers.) not the million a unce emerging triend, than Hurper's Magazine, —Methodist Probressit, (Bultumers.)

Twenty, five cents tuys it—the cheapest, richest, and most is sing luxary for the money that we know. Three dollars severes it for one year, and what three dollars severs for far? Put the same smount is clother, earling, drawing, farminer, and how much of a rubstantial thing is obtained? If ideas, facts, and sentiments have in monetary value—above all, if the humor that refreshes, the pleasantries that bring a gentle smile, and brighten the passage of a truth to your brain, and the happy combination of the real and the imaginative, without which no one can live a life above the snimul, are to be put into the scale opposite to dollars and cents, then you may be certain, that if Harper were three or four times as dear, it would amply repay it price. It is a Magazine—not a book, not a scientific periodical, nor yet a supplier of light gessip and chatty anecdotes—but a Magazine that takes every form of interesting, dignified, and attractive literature in its grasp—Setchern Trimes.

Improved Air Heaters, Fuel & Heat Economizing Stoves, & Heaters.

Economizing Stoves, & Heaters.

The manufacturers have just diriched and now offe. It for sale, a fine Partor Stove and Parlor Cook.—Also, their large Heating Furnace, for the heating to buildings with one heater. These henters, upon test have proven themselves to require but haif the fue required by other heaters of the same size, and they give much more and a pleasanter heat. The fragons why they work so much better are because they have more benting surface in direct contact with the fire, and the supply of air over the internal and external surface is greater and more perfect to take the heat up rapidly, thereby preventing the furnace from holding the heat, making it for and oppressive. The heat, not bring keld, is not forced up the flue, as is the case where heat is held in the furnace, because the vent up the smoke pipe is the freest, the draft drawing it up and the furnace forcing it lack. These difficulties are overcome, and the heat is saved that waster in stoves and heaters.

Shreiner's Heaters are the only double Air-Heating Panances in the market, and therefore have a great advantage over all Heaters in use for saving heat and fuel.

These Stoves will heat, which the facel of one or diluncy store, as much as a transport to the continuous contents.
