This compound will be found a great pro-motor of health, when taken in the spling, to expel the foul humors which foster in the blood at that sceson of the year. By the time-ly expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous seres, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the lody by an alterative medicine. Cleanse out the vitlated blood whenever you find its impurities bursting through the skin in pinples, cruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whenever it is foul, and your facility will tell you when. Even where no particular disorder whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sconer or later something nust go wrong, and the great machinery of life is disordered or overthrown.

hie is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been emergiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extra to of it, contain but little of the virtue of Sarsaparilla, or any thing clse.

or any thing else. During late years the public have been mis-led by large bottles, pretending to give a quart of Extract of Sansaparilla for one dollar Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsupa-rilla, but often no curative properties whatev-er. Hence, bitter and painful disappeintment has followed the use of the various extracts of Sarsaparilla which flowd the market, until the same first is invite denired and has bee une

Still we call this compound Saraperilla, and intend to supply such a tend dy as shall re-eue the name from the load of obloguy which rests upon it. And we think we have ground for believing it has virtues which are intended to euro. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
