Scrofula, or King's Evil, c a constitutional discove, a corruption of the alood, by which this thund becomes ritiated, weak, and poor. Being in the circulation, it pervades the whole body; and may burst out a discove on may part of it. No organ is free rom its attacke, after is there one which it may not destroy. The scrotllous taint is variously caused by increarial discove, low living, disordered or unhealthy food, impure nir, fifth and filthy habits, the depressing vices, and, above all, by the venercal integrion. Whatever be its origin, it is hereditary in the constitution, discending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Ilin who says, "I will visit the iniquities of the fathers upon

will visit the iniquities of the futhers upon their children."

Its effects commence by deposition from the Its effects commence by deposition from the blood of corrupt or ulcerous matter; which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they, have far less power to withstand the attacks of other diseases; concernently year numbers needs by disorders. phants, but they have an in the proper to with stand the attacks of other diseases; consequently, vast numbers perish by disorder-which, although not scrofulo is in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human lamily has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this huking infection, and their health is undermined by it. To cleanse it from the system we must removate the blood by an alterative fieldicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla. the most effectual remedy which the medical-skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the resence of the system from its destructive consequences. Hence it should be employed for the cure of not fully serofula, but also those other affections which arise from it, such as Emprivi and Skir Idealy St. Anthony's Pine, Rose, or Empirelas, Papiers, Perentals, Blouches, Blains and Boils, Temous, Tertim and Salt Ringay, Seath Head, Ringayous, Ringayous, Properties, Brains, Stephilial and Markenial Dispussion, Dispussion, Debutify, and, RIPEWWATISH, STPINLETIC and MURCERIAL DIS-ESSIS, DROPSY, DYSPIESIA, DEBILITY, and, indeed, ALL COMPLAINES ARISING FROM VITIA-ISD OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsapa-rilla is to purify and regenerate this vital fluid, without which sould health is impossible in contaminated constitutions.

the resulting of its kind is too apparent to escape observation, and where its virtue's are known, the observation, and where its virtue's are known, the pull in no longer hesitate what antidote to employ for the distressing and druggerous affections of the nulmon sy organs that are incident to our climate.
