EVANS & WATSON'S SALAMANDER SAFES,

304 *Chestnut Street,*

PHILADELPHIA.

ANOTHER TRIUMPH!

Philadelphia, Sept. 29, 1859.

TO THE PRESIDENT OF THE PHILADELPHIA AGRICULTURAL SOCIETY:—The subscribers, your committee to examine the contents of a Salamander Safe, of Evans & Watson, after being exposed to a strong fire on the Fair Grounds for eight hours, respectfully represent:

That after seven cords of oak wood and three of pine had been consumed around the Safe, it was opened in the presence of the committee, and the contents taken out, a little warmed, but not even scorched.

Several Silver Medals heretofore received by the manufacturers, and a large quantity of documents were in the Safe, and came out entirely uninjured.

The experiment satisfied us of the capacity of Safes of this kind to protect contents from any fire to which they may be exposed.

The Committee awarded a Diploma and Silver Medal.

GEO W. WOODWARD.
JOHN W. GEARY.
J. P. RUTHERFORD.
ALFRED S. GILLETT.

STILL ANOTHER.

Wilmington, Del., Sept 17, 1859.—Messrs. Evans & Watson, Philadelphia:

GENTLEMEN:—The Salamander Fire-Proof Safe of your manufacture, purchased by us from your Agent Perris & Garrett, of our city, some months ago, was severely tried by burglars last Saturday night, and although they had a sledge hammer, cold chisel, drill, and gunpowder, they did not succeed in opening the Safe. The lock being one of "Hall's Patent Powder proof," they could not get the powder into it, but drilled a hole in the lower panel and forced in a large charge, which was ignited, and although the door, inside and out, showed the explosion not to have been a small one, it was not forced open. We suppose they were the greater part of the night at work on it. We are much gratified at the result of the attempt to enter it, and if the above facts are of any service, you are at liberty to use them.

Yours, Truly, BAYNARD & JONES.

GREAT FIRE!—ANOTHER TRIUMPH!

Knoxville, Tennessee, March 13th, 1859.

Messrs. Evans & Watson, Philadelphia:—Gentlemen—It affords me great pleasure to say to you that the Salamander Safe, which I purchased from you in February, 1858, proved to be what you recommended it—a sure protection from fire. My storehouse, together with several others, was burned to the ground in March last. The Safe fell through into the cellar, and was exposed to intense heat for six or eight hours, and when it was taken from the ruins and opened, all its contents were found to be in a perfect state, the books and the papers not being injured any whatever. I can cheerfully recommend your Safes to the community, believing, as I do, that they are as near fire-proof as it is possible for any Safe to be made.

THOMAS J. POWELL.

☞ A large assortment of the above Safes always on hand, at 304 Chestnut street, (late 24 South Fourth street,) Philadelphia.

SHREINER'S

Improved Air Heaters, Fuel & Heat Economizing Stoves, & Heaters.

THE manufacturers have just finished and now offer for sale, a fine Parlor Stove and Parlor Cook—Also, their large Heating Furnace, for the heating of buildings with one heater. These heaters, upon test, have proven themselves to require but half the fuel required by other heaters of the same size, and they give much more and a pleasanter heat. The reason why they work so much better are because they have more heating surface in direct contact with the fire, and the supply of air over the internal and external surface is greater and more perfect to take the heat up rapidly, thereby preventing the furnace from holding the heat, making it red hot to burn it out and scorch the air, making it dry and oppressive. The heat, not being held, is not forced up the flue, as is the case where heat is held in the furnace, because the vent up the smoke pipe is the freest, the draft drawing it up and the furnace forcing it back. These difficulties are overcome, and the heat is saved that wastes in stoves and heaters.

Shreiner's Heaters are the only double Air-Heating Furnaces in the market, and therefore have a great advantage over all Heaters in use for saving heat and fuel.

☞ These Stoves will heat, with the fuel of one ordinary stove, as much as two or three ordinary stoves, and they heat rooms up and down stairs.

A LANCASTER COUNTY TRIUMPH.

AT the late County Agricultural and Mechanics Fair, Philip Shreiner's Stove Invention for saving waste heat and fuel, was awarded a Silver Cup valued at $50, for the most novel and useful Lancaster County Invention,

Also, to Shreiner & Young, for best Apparatus for Warming Houses a Silver Medal. The Judges also said in their report (there being no premium for this class of Stoves) that Shreiner & Young were entitled to a special notice for their Improved Ornamental Gas-Burning Parlor and Hall Stove.

At the State Fair, recently held at Philadelphia, the following awards were made: To Shreiner & Young, for best Hall Stove, First Premium and Diploma; for Portable Heater, Premium and Special Diploma.

The improvement in Stoves and Heaters was pronounced at the State Fair, by the most scientific men of our country, to be the only improvement ever made in Stoves, as being the only scientific Stove in the world. These Stoves and Heaters allow no waste heat up the flue, and burn the gas better than any gas burner in the market. We make these statements, knowing that we do not exaggerate. To satisfy all, we will have them erected and set the Stoves in operation. Those wishing to purchase need run no risk, as we guarantee the complete operation and great saving of fuel. Those wanting a cheap furnace, that heats well with a small quantity of fuel should call and examine at

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with the pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing those ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall recover the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.
