

and his sisters say in solemn convalescence. The great grief was over, the stormy billows had subsided, the clouds had passed away. "The funeral services" were about to be held, and "Married!" Anabel was called for hands in inarticulate horror, while Myra looked calmly upon the comforted widower.

"Did I say I would never marry again?" asked Anabel, angry at these mute demonstrations of surprise.

"Did you not say so, dear brother?" "Never, never. I only misinterpreted my feelings. I wish to compliment Rachel's memory, which I deeply revere, and I cannot better do so than by marrying again."

"Six months and two weeks" suggested Anabel.

"Can a man mourn forever?" asked Anabel, indignantly.

"Can a man mourn at all?" asked Myra, speaking for the first time.

"Oh, my dear sister," sighed Anabel, as the wedding cortege drove from the church door on the following Thursday, and the face of Miss Villers peeped out of the window of the bridal coach; "it is in the time of grief that a man should be most generous."

"Certainly," responded Myra, quietly; "he might like to use it now."

The Columbia Spy.

COLUMBIA, PA.
SATURDAY, MARCH 4, 1860.

See New Advertisements of A. M. Rambo's, Old Fellows' Hall, in today's Paper.

Schools.—Mr. Claws' Select School for both sexes, will open on the 16th, second Monday of April. Particular attention paid to the morals of the pupils.
March 24, 1859-60.

Executive Committee of the Columbia Board of Trade, for the Month of March.
GEORGE BOGLE, H. C. FONDERSMITH, CHAS. J. PUSEY.

Lectures.—The Rev. J. W. Nevins, D. D., will preach in the German Reformed Church, of this place, on next Sabbath morning and evening, at the usual hours.

Removals.—We request those of our subscribers who may change, or have changed, their places of residence, this season, to inform us of such removals, that the Spy may be served promptly and at the proper places.

Lectures.—At the election on Friday next the citizens of the South Ward will be called upon to vote for a Justice of the Peace. By our advertising columns it will be seen that D. E. Bruner and John W. Houston announce themselves as candidates for that office. How many more will appear before the day, we cannot guess. It's a free fight, and the best man wins.

FATAL ACCIDENT.—On last Monday morning a son of Mr. Isaac Duck, a boy of about twelve years of age, was run over by a train of coal cars, belonging to the Shawnee Furnaces, on the Farmaco Railroad. The lad was riding on the train and jumped off in the cut above the Pennsylvania Railroad. In jumping he fell, and rolled under the car. Both legs were crushed, and the boy died from the effects shortly afterwards.

OUR SPRING ADVERTISEMENTS.—Our numerous merchants are beginning to announce their new spring stock, and to compete in a spirited manner. Our business men generally are alive to the advantages of judicious advertising, and our columns are a very fair directory to the business of the town.

A new Grocery store has been opened by Messrs. Bruner and Jackson, in Locust street, west door above Haldeman's store. They advertise in today's Spy an extensive stock of every thing in their line, at reduced prices. The new establishment is neatly and completely fitted up, and the stock is entirely fresh and first quality. They advertise Sugar and Molasses, &c., at very low rates.

Tendermish is equal to the occasion, and puts his groceries—Sugars, Syrups, Coffees, &c.—at a remarkably low figure. See his advertisement. He announces a new stock of handsome goods as forthcoming next week.

PARADE.—The Columbia National Band will appear in new uniform on Monday 9th prox., and invite the Firemen by a card in our columns, to join in a parade on the occasion. The members of the Band have worked faithfully to perfect themselves as musicians, and by their perseverance have succeeded in uniforming themselves. They will now make a good appearance, and with their skill as performers they may be regarded as a credit to our town. The uniform has been prepared at no inconsiderable expense to each individual member, and the Band deserves the support and encouragement, wherever they can be extended by employment, of all Columbians. The parade will doubtless be a handsome turn-out and display.

EXHIBITION.—An interesting Exhibition will be given at Odd Fellows' Hall on next Thursday evening, by the pupils of the Male High School, under the charge of the teacher, Mr. D. R. Brubaker. The proceeds will be for the benefit of the Cadets of Temperance. The exercises promise to be varied, and will exhibit the proficiency of the pupils in at least one branch of study—declamation. Mr. Brubaker has devoted time and attention to the preparation and perfection of the boys in their parts, and we hope will be repaid for his care and trouble by ample success on the part of his pupils. Of course the houses will be overflowing. The programme is different from that of the Cadets' Exhibition.

George Bogle announces his business in a card. His stock of lumber will be found full and complete. Customers will find Mr. B. a fair and square man in his transactions.

Thomas Welsh advertises a large supply of Ropes, just received, and a stock of Boat Stores—Hams, Shoulders, &c., at his store near the Cutler Locks. Justice Welsh announces the removal of his office from the Blue Front to the first house on the south side of Locust street below Third, between the properties of Mrs. Young and Joseph Ulmer. The lots for sale are advantageously located, and should meet with ready sale. Mr. W.'s terms are liberal, and we hope he may find a purchaser.

A Public Library.
At the Hope Lodge Lecture, on last Saturday evening, Mr. S. W. Milfin, suggested that the citizens of Columbia should meet together and discuss the advisability and feasibility of establishing a Public Library in our town. He introduced the subject and advocated the undertaking in a few words, referring the audience to the Spy for a fuller and more distinct call for the necessary action. We willingly give publicity to any effort, in however elementary a stage, having the proposed end in view, and in all advocate it earnestly, trusting to the merits of the cause for success. We must premise that the introduction of this proposition at this lecture does not necessarily connect it with Hope Lodge. The audience attending these lectures have been made up of the persons most likely to take an interest in a public library, and therefore the occasion of the last lecture of the series was deemed a fitting one for broaching the subject. The design is, so far as it has been matured, to establish a permanent institution, independent of all societies or sects, to be a *Citizens Library*, for the use of the town; a library furnished with good standard books of interest and for reference; a regular reading room, well supplied with first-class papers and periodicals.

The design commends itself, how shall it be executed? We have been desired by interested parties to call a meeting for the purpose of taking preliminary steps, and this evening has been suggested as the most fitting time—not to let the subject sleep. We therefore request all persons in favor of an effort to establish a Public Library in Columbia, to meet at the Town Hall this evening at 7 1/2 o'clock. An initial meeting of this kind is of course necessary, and we hope there will be good attendance. The best means will doubtless be resorted to for securing the co-operation of all citizens favorable to the enterprise. In advance of the meeting we offer a suggestion as to the most effectual method of getting the subject fairly "before the people." Let a lecture be given at Odd Fellows' Hall, which shall appeal directly to the audience, in favor of the founding of an institution that Columbia so much needs; the subject to be open to discussion and remark, as in the Hope Lodge Lectures. This would bring together a large proportion of the persons most interested in the proposed Library, including ladies who cannot attend town meetings at the Town Hall; the project would be fairly considered, and advocated; we take it for granted that no man would rise to oppose it. A refusal of contributions is the only form of opposition to be feared; and surely an enterprise that meets—as this must meet—general approval, is in a fair way towards accomplishment.

In a hastily written notice we cannot be coherent or argumentative. We put down a few facts, irregularly and as they suggest themselves, and leave it to the good sense of our readers to decide that the cause we are advocating is a good one, and worthy of general support. We can only be earnest in expressing a hope that success may crown the efforts to be made, and that Columbia may soon have occasion to be justly proud of the enterprise and liberality of her citizens in establishing a good library which may be the nucleus of a great one.

THE COLUMBIA ROLLING MILL.—We have the satisfaction of informing our readers that the Columbia Rolling Mill will be put into immediate operation. Workmen will arrive about the middle of next week to put the machinery in thorough repair, and we may expect to see the Mill resume its busy life. This is good news to our laboring and mercantile public. The business to be added to our town with the revival of work at an establishment like the Rolling Mill, will form an important item, and we trust that success may insure its permanence. The new firm, Malby & Case, will prosecute the work in earnest, and we shall not be sorry to see the infusion of energetic spirit into our community. By reference to our advertising columns it will be seen that twenty-five dwellings are required. This will fill up about all the vacant dwellings of the place.

In this connection we may mention that the good effect of an organization like the "Board of Trade" has been felt in the matter of the re-establishment of the business of the Rolling Mill. The purchasers, entire strangers in our town, were received by the Board of Trade Committee for the month, and aided in preliminary arrangements, put in communication with many citizens and furnished with any information required.—The committee for the month of April will be appointed at the regular monthly meeting, next week, and will appear in Saturday's Spy.

PARADE.—The Columbia National Band will appear in new uniform on Monday 9th prox., and invite the Firemen by a card in our columns, to join in a parade on the occasion. The members of the Band have worked faithfully to perfect themselves as musicians, and by their perseverance have succeeded in uniforming themselves. They will now make a good appearance, and with their skill as performers they may be regarded as a credit to our town. The uniform has been prepared at no inconsiderable expense to each individual member, and the Band deserves the support and encouragement, wherever they can be extended by employment, of all Columbians. The parade will doubtless be a handsome turn-out and display.

AN IMPORTANT MEETING.—A meeting of the Iron Manufacturers of Pennsylvania, irrespective of party, was held at La Pierre House Philadelphia, on 22nd inst., which is of importance to our State and the Country generally, and of particular interest to our town and neighborhood. We give below the list of officers elected, including many familiar names of Iron men of Columbia and vicinity, and the resolutions in regard to the tariff, adopted by the meeting.

Chairman.—Henry M. Watts, Philadelphia.
Vice-Presidents.—Samuel J. Peeser, Philadelphia; J. B. Morehead, Merion Furnace; Edw. Yardley, Pottsville; John McManus, Reading Furnace; Joseph Whitaker, Durham; Nathan Bowland, Kensington, Philadelphia; Thomas I. Potts, Swede Furnace; J. Millholland, Reading Furnace; Holker Hughes, Franklin County; F. S. Hunter, Leesport; H. Brooke, Chester; C. Brooke, Chester; S. F. Eagle, Marietta; Charles L. Wood, Cambria; C. B. Grubb, Lancaster; James Myers, Columbia; A. B. Grubb, Mount Hope; G. Dawson Coleman, Lebanon; T. J. Wood, Conshohocken; T. C. Wood, Conshohocken; Maris Hoopes, Colemanville; Charles R. Paxson, Ironside; Charles E. Smith, Fairmount; Wm. Woud, C. M. Clinger, J. Y. L. De Witt, Chulasky; Stephen Culwell, Philadelphia; Joseph Cabot, Philadelphia.

Secretaries.—Dr. E. Haldeman, Chiques Furnace; Andrew Wheeler, Philadelphia; H. R. Knottwell, Chestnut Hill Iron Ore Company; John Wister, Dunannon; A. H. Musselman, Marietta Furnace; William M. Seyfert, Reading; C. L. Bailey, Harrisburg. The following committee on resolutions was appointed: C. S. Kaufman, Columbia; Henry McCormick, Harrisburg; Isaac Eckert, Reading; Edward Brooke, Birdsboro; Edward M. Clymer, Reading; S. Miles Green, Huntingdon; Edward S. Backley, Philadelphia.

This committee reported the following resolutions, which were unanimously adopted: Resolved, That this meeting approve and commend the bill recently introduced into the House of Representatives by the Committee of Ways and Means, proposing to substitute specific for ad valorem duties upon iron and other articles imported into the United States.

Resolved, That we regard the seventh section of said bill, relating to iron and the manufactures of iron and steel, as satisfactory and fair to all parties interested in their manufacture, and that the duties fixed upon iron and steel, as proposed, do not average value during the last six years, ending June 30, 1850, and are therefore based upon a fair average standard.

Resolved, That the enactment of this bill will enable the American manufacturers to compete fairly with the foreigner, and that it will tend to prevent those enormous fluctuations in the price of iron, which have under the ad valorem system, been so disastrous to our home industry; inflicting prices by increasing the duty when least needed, and depressing them by reducing the duty when most required.

Resolved, That we earnestly request our Representatives in both branches of Congress to use all honorable means to pass this bill without delay; it being in accordance with the views of the citizens, as expressed by James Buchanan, President of the United States, in his annual messages to Congress.

Resolved, That a copy of the proceedings of this meeting be forwarded to the President of the United States, and to each member of Congress. Adjourned.

PROCEEDINGS OF COUNCIL.—A Special Meeting of the Town Council was held March 20th, 1859. Members present—Messrs. Bruner, Breeman, Hershey, McChesney, Welsh, Watts and Fraley—President.

Mr. Hershey offered the following resolution, which was adopted: Resolved—That the Collector of Borough Taxes for the year 1859, be allowed five per cent on all taxes he collects previous to January 1st, 1861, and two per cent on all he collects after that date. That he be required to pay to the Borough Treasurer, on or before each stated Meeting of Town Council, all moneys he may have collected on such time, and he be further required to fore the duplicate settled on or before March 1st, 1861.

Mr. Breeman offered the following resolution: Resolved—That all persons paying their Borough Tax for the year 1860, on or before June 1st, (next), shall be allowed a discount of five per cent.

On the adoption of which the yeas and nays were called, with the following result: Yeas—Messrs. Bruner, Breeman, Hershey, McChesney and Fraley—5. Nays—T. Welsh—1.

Mr. Bruner offered the following resolution: Resolved—That the Chief Burgess is hereby requested to borrow for the use of the Borough, the sum of \$900; and that the Borough is hereby pledged for the payment of the same when due.

HOW DYSPEPSIS WAS OBTAINED IN CLEVELAND IN OLDEN TIMES.—Two of the committed reported in favor of Sandusky. It has been surmised that the committee, viewing with alarm the increase of convalescence, sought some way to prevent that increase, and in the course of their travels, having heard how dyspepsia in old times was obtained, took the hint from the moral of that tale, and immediately decided upon Sandusky. The story runs thus: Many years since Cleveland numbered among her villagers a noted wag, whose sole idea of the chief end of man was to tell good stories. Our old settlers very well remember Oliver Boughton, who built the St. Clair House, and kept tavern there. Mr. B. had a hired man, who had come from the East. This man, in a very confidential way, came to Boughton one day, and asked him what the law in Ohio was relative to divorce. B. replied that there was only one law allowing a man to get a divorce from his wife, but that the Constitution absolutely forbade such proceeding. "What on earth then," asked the suffering husband, "can a man do who can't live with his wife; how can he get rid of her?" "Oh!" said Boughton, "that is the easiest thing in the world. I'll tell you. Pretend to your wife that you want her to take a short trip into the country, and get her on board a vessel bound for Sandusky city. When there you can get her boarded for one dollar and fifty cents a week. Make her believe that you must go down to Mount Vernon or Wooster, and that it will be more comfortable for her to remain at Sandusky. Pay her board two weeks in advance, that would be three dollars; don't pay for any longer, for that will be long enough; go off on your business, and your wife will never trouble you again. One week in Sandusky is enough to sicken her, and she will always bury strangers by the end of the second week!" The tired husband followed Boughton's advice, and at the end of two weeks was a free man.—Cleveland Herald.

The clock in the tower of the Cathedral of Strasburg is not only a monster in size, but is the most wonderful piece of mechanism in the world. It is one hundred feet high, thirty wide, and fifteen deep. About twenty feet from the bottom is the dial, on each side of which is a cherub, holding a small mallet in his hand, while over the dial is a small bell; the cherub on the left strikes the first quarter that on the right the second quarter. Fifty feet above the dial is a colossal figure of Time, with a bell in his left hand and a scythe in his right. A figure of a young man in front strikes the third quarter on the bell in Time's left hand, and then turns and glides with a slow step around behind Time, when it comes an old man with a mallet and places himself directly in front of the great Reaper. As the hour of twelve comes, the old man deliberately strikes, with much power, twelve times on the bell. If he then glides slowly behind Time, and the young man again comes out and takes his position ready to do his duty when called upon by the machinery. As soon as the old man has struck twelve and disappeared, another set of machinery is set in motion, some twenty feet higher still, where there is a high cross with the image of Christ upon it. The instant twelve is struck, a figure of one of the Apostles walks out from behind, comes in front, turns facing the cross, bows, and walks on around to his place. This is repeated, until twelve figures, representing the twelve Apostles, as large as life, walk out, bow, and pass on. As the last appears, an enormous game cock, perched on the pinnacle of the clock, slowly flaps its wings, stretches forth its neck and crows three times, no loud as to be heard outside the tower, but as if he were speaking to some distance, and with a life like naturalness. Then all is as still death.

We are authorized to announce S. V. Bovey, Fulton, as a candidate for Sheriff, subject to the decision of the People's County Convention.

DR. McLANE'S VERMIFUGE. ALWAYS RESPECTED TO EVERY OTHER REMEDY FOR THE CURE OF THE VERMIFUGE. New York, September 15, 1852. This is to certify that my child, three years old, was troubled with worms some six months ago. I had tried several kinds of medicine, but none did me any good, and it was not until I tried Dr. McLANE'S celebrated Vermifuge, prepared by Fleming Bros., that I found any relief. I save her the contents of one bottle which brought from her a very large quantity of worms, and she has since been in good health, and it was not until I tried Dr. McLANE'S celebrated Vermifuge, prepared by Fleming Bros., that I found any relief. I save her the contents of one bottle which brought from her a very large quantity of worms, and she has since been in good health, and it was not until I tried Dr. McLANE'S celebrated Vermifuge, prepared by Fleming Bros., that I found any relief.

REASON AND COMMON SENSE. Our readers may remember we have on several occasions spoken in very eulogistic terms of a preparation which Dr. Seta S. Bance, of 108 Baltimore street, Baltimore, Md., has discovered for the cure of Epileptic Fits. Now, in doing so, we have been actuated by the very best motives, viz: the alleviation of human suffering! From circumstances which have lately come to our knowledge, we fear there is a class of persons who are not disposed to try this remedy in a common sense manner. We allude to the fact of selecting a particular case in a town where, perhaps, there are six or eight cases, and trying it on one case. Now, perhaps, the case selected might be the only one of the whole number that would not cure. This is neither doing them nor the medicine justice. If a dozen persons were stricken down with cholera in one town or neighborhood, would they all send for a physician, or would only one employ him and wait to see if he cured the first patient? That plan of procedure would be most absurd. So in the case of Dr. Bance's remedy, every one who has fits should try it for a reasonable length of time. It will not cure in a day or work nothing worth doing can be expected at once. What is easily done, is as easily undone. The growth of time is enduring. From the most respectable testimony we have examined, we feel assured that by a proper perseverance in this remedy, nine cases of Epilepsy out of ten may be cured. The Pills are sent by mail, free of postage, to any part of the world. Price, one box, \$3; two, \$5; twelve, \$21. You will find the address above.

DR. HOOFLAND'S GERMAN BITTERS, AND DR. HOOFLAND'S BALSMIC CORDIAL. The great standard medicine of the present age, have acquired their great popularity only through years of trial. Unbounded satisfaction is rendered by them in all cases; and the people have pronounced them worthy. Liver Complaint, Dyspepsia, Jaundice, Debility of the Nervous System, Diseases of the Kidneys, and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS. The Balsamic Cordial has acquired a reputation surpassing that of any similar preparation extant. It will cure, WITHOUT FAIL, the most severe and long-standing Cough, Cold, or Hoarseness, Bronchitis, Inflammation, Consumption, and all diseases arising from a disordered liver or weakness of the stomach and digestive organs, are speedily and permanently cured by the GERMAN BITTERS. The Balsamic Cordial has acquired a reputation surpassing that of any similar preparation extant.
