HOLLOWAY'S PILLS Nervous Disorders.

What is more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Where is one:—drivk but little wine, heer, or spirits, or far better, none; take no coffee,—weak ten being preferable; get all the fresh air you can; take three or four pills every night; ear plenty of solids, avoiding the user of slops; and if test golden rules are followed, you will an happy in mind and strong in body, and forget you have any nerves.

If there is one thing more than another for which these Pills are so famous it is their purif, ing properties, especially their power of cleansing the blood from all impurities, and removing dangerous and suspended secretions. Universally adopted as the one grand temedy for female complaints, they never full hever weaken the system, and always bring about what is required.

Sick Headaches and Want of Appetite. These feelings which so sadden us, most frequently arise from annoyances or trouble, from obstructed period from annoyances or trouble, from obstructed period for us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Phile if taken according to the printed instructions, will quickly restore a healthy action to both liver and stomach, whence follow as a natural consequence, a good appetite and a clear head. In the last and west indices scarcely any other medicine is ever used for those disorders.

Disorders of the Kidneys. In all discusses affecting those organs, whether they secrete too much or too little water; or whether they be affected with stone or gravel, or with webes and pains settled in the loins over the regions of the kidness these Pills should be taken according to the printed directions, and the Oliment should be well tubbed into the small of the back at bed time. This treatment will give almost immediate relief when ult other means have failed.

No medicine will so effectually improve the tone of the stomuch as these Pills; they remove all acidity, occasioned by either intemperance or improper dist. They reach the liver and reduce it to a healthy ac-tion, they are wonderfully efficiencial in cases of spasman fact they never faul in cuing all disorders spasm—in fact they never of the liver and stomach

WE are told that he who neglects to provide for his household is "worse than the heathen." There is no doubt of it. When in heath the provident man will provide for his charge and whe shift his health the provident man will provide for his charge and whe shift his health is noted by the hour when the sympathy of fernals is a seconding brass. This can be done by Life Insurance. Every man owes his duty to his family. The nucestantly of life is a constant lesson which teaches the tact that he who to-day walks in the pride of manhood, may fall to-morrow, and the plans by which riches and honors were to have been brought to the loved one, vanish as the morning mists. Let every man in healt structure to his family the comfort of knowing that should be becalled from them the wolf may be keeper for the healt structure.
