THIS is an article to which every builder's attention I should be particularly directed. At this moment from any roof in our large cities you can count thou sands of brick chimneys so completely eaten by the coal gas and weather as to demand immediate removal—to do which seldom costs less than 85, at once showing the necessity of some article that will not decay or be cuten by gas, &c. This we now offer in our Oranmental and Plain Chimney Tops. They are burnt harder than stones in fact, perfectly vitrified, are impervious to the strong send emitted by coal, (which eats up brack and morar an less than three or four years). We nee now making, and have on hand, large quantities of several different styles, and from 2 feet to 8 6, 9 in, high, and from \$1.75 to \$20 cach, (less on the first place than a brack chimney.)

PROF O. J. Wood: Bear Sir.—Your Hair Restorative is rapidly gaining populacity in this community have bud occasion to lay prejudice as-ide, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the road-side, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the inne I first discovered its dropping, lowever, up to the time of its total disappearance. I employed excryphing I could think of, being a profe-sional man myself, and, as I thought, anderstanding the nature of he disease, but was finally defeated in every prescription advanced.

These and no other circum-tances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result; two nouths after the first application. I had as beautiful a head of young hair as I ever saw, for which I externally owe you my most sincere thanks—Rest as a ready of all my arrest; moreover, I shall use my influence, which I flatter myself to say, is not a faithe.

DR. Woon: Dear Sir: Permit me to express the obligations I mutuater for the entire restoration of my hair to list original color; about the time of my arrival in the United States it, was rapidly becoming groy, but upon the application of your "Hair Restorative" it soon recovered its original line. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

The Restorative is put up in bottles of three sizes, viz: large, medium, and sin iff, the small bottle holds it point and retails for one dollar per bottle; the medium holds at least twenty per cent, more in proportion than the small, retails for two dollars per bottle; the large holds a quant, 40 per cent, more in proportion, and retails for three dollars.

Sick Headaches and Want of Appetite.
These feetings which so sadden us, most frequently arise from annoyances or trouble, from obstructed perspiration, or from eating and drinking what is unfit or us, thus disordering the liver and stomach. These organs must be regulated if you wish to be well. The Pills if taken according to the printed instructions, will quickly restore a healthy action to both liver and stomach, whence follow as a natural consequence, a good appetite and a clear head. In the East and West Indies scarcely any other medicine is ever used for these disorders.

Disorders of the Manays.

In all diseases affecting these organs, whether they secrete too much or too little water, or whether they be afflicted with stone or gravel, or with uches and pan scutled in the lone over the regions of the kidnes where Fills should be taken necording to the punted directions, and the Omment Should be well rubbed into the small of the back at bed time. No medicine will so effectually improve the conco, the stomach as these Philis, they remove all acidity occasioned by either intemperance or improper diet. They rench the liver and induce it to a healthy action, they are wonderfully effections in cases of spasin—in fact they never full in eming all disorders in the liver and standach.
