CAPTAIN KIDD, THE PIRATE. Some years before, while the war was still aging, there had been loud complaints in the city that even privateers of St. Malo's and Dunkirk caused less molestation to trade than another class of marauders. The English navy was fully employed in the Channel, in the Atlantic and in the Mediterranean. The Indian Ocean, meanwhile, swarmed frightful stories were told. Many of these men, it was said, came from our North American colonies, and carried back to those colonies the spoils gained by crime. Adventurers who durst not show themselves in he Thames found a ready market for their Il-gotten spices and stuffs at New York .-Even the Puritans of New England, who in sactimonious austerity surpassed even their brethren of Scotland, were accused of conto enjoy abundantly and cheaply the pre-

Before Bellamont sailed for America, William spoke strongly to him about the freebooting which was the disgrace of the colonies. "I send you, my lord to New York," he said. "because an honest and upright man is wanted to put these abuses down, and because I believe you to be such a man." Bellamont exerted himself to justify the high opinion which the king had formed of him. It was soon known at New York that the Governor who had just arrived from England was bent on the suppression of piracy, and some colonists in whom he placed great confidence suggested to him what they may perhaps have thought the best mode of attaining that object. There was then in the settlement a veteran mariner named William Kild. He had passed most of his life on of Surat and of the villagers of the coast of the whole Indian Ocean of the whole race. king. The king referred it to the Admiralty. The Admiralty raised difficulties, such as are perpetually raised by public boards

when any deviation, whether for the better or for the worse from the established course of proceeding is proposed. It then occurred to Bellamont that his favorite scheme might he carried into effect without any cost to the easily fit out a privateer which would soon make the Arabian Gulf and the Bay of Bengal secure highways for trade.
