Prof. O. J. Wood, & Cv. Gent.:—The letter I wrote you in 1856 concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given tree to unmerous enquirles touching the facts in the case. The enquirles are, fir-t, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and donawer lavariably yes. My hair is even better than in any stage of my life for 40 years past, more soft the first and better colored; the same is true of my whickers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care were used by wiping the lace in close-connection with the whiskers the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good, as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely imitated and been used, not only without any good effect, button brother injury. I have not used any of your Restorative of any account for some months, and you my friends and thereby induced them to try it, many were skeptical until after trial, and then purchaseed and used it with universal success. I will ask as a favor, that you send on a test by will not not allow. The failure is caused by the impure article will insure-access, and I believe where good effects do not silow. The failure is caused by the impure article will insure-access, and in th

Depot, 444 Broadway, and sold by all dealers throughout the world.

The Restorative is put up in hottles of three sizes, viz large, medium, and small; the small bottle holds I a pint and retails for one dollar per bottle; the medium holds at least twenty per cent, more in proportion that the least twenty per cent, more in proportion that the least twenty per cent, more in proportion, and remils for three dollars.
