AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD, And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Illotches, Boils, Blains, and all Skin Diseases.

Piniples, Pustules, Blotches, Boils, Blains, and all Skin Discases.

OARLAND, Ind., Git June, 1859.

J. C. Ayra & Co. Genus: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having interied a Scrofulous infection, I have suffered from it in various ways for year. Sometimes it burst out in Ulcars on my hands and arms; sometimes it turned inward and distressed me at the stounch. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and locatisome beyond description. I tried many inediciues and several physicians, but without much relief from any, thing. In fact, the disorder grew worse. At length I was rejeiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing, out made must be good. I sent to Cincinnational got if, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin son began to form under the scale which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I fullyou, that I hold you to be one of the apestics of the age, and remain ever gratefully.

Syphilis and Mercurial Disease.

Syphilis and Mercurial Disease.

New Onlease, 25th August, 1859.

Dr. J. C. Aten: Sir, I cheesfully comply with the request of your agent, and report to you some of the effects I have realized with your Saraquailla.

I have cured with it, in my pactice, most of the complaints for which it is recommended, and have family in the cure of Frneral and Mercirial Disease. One of my patients had Syphilitle ulcers in his threat, which were consuming his palists and the top of his mouth. Your Saraparilla, steadily taken, cured him in first weeks. Another was attacked by secondary symptoms in his nowe, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Saraparilla: the ulcera leaded, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this potion in her bones. They had become so censitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Saraparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, those tuly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.
