MAP OF THE SEAT OF WAR.—We are indebted to Nathan Greene, Esq., for a very useful map of the seat of war in Virginia. It gives a bird's eye view of the country—its mountains, rivers and general character, with all important towns. Mr. Greene will send you a copy of this map, and we can cordially recommend them as fully supplying the identical want of the community in the present crisis. Every one wishes to follow the movements of our armies, and with this map before him he cannot fail to conceive correctly the various positions of our own and the rebel forces.

DEATH OF BISHOP BOWMAN.—The sad intelligence of the sudden death of Rev. Samuel Bowman, D. D., Assistant Bishop of the Episcopal Church of the Diocese of Pennsylvania, was announced on Monday last. Here, where Bishop Bowman, so long a resident of our neighboring city, Lancaster, was generally known, at least by reputation, his death was keenly felt. The suddenness of the call added to the impression produced; but more than all, the distressing particulars, when received by the pipes of Monday evening, contributed to excite in the community a feeling of profound sorrow and sympathy. The following from Monday evening's Express presents probably the most accurate details.

They have two round houses of perhaps one hundred and fifty feet in diameter, and a large machine shop, between them, about one hundred by two hundred feet square. In this latter building was quartered Company K, together with four or five other companies. Although it afforded protection from the inclemency of the weather, yet it was a disagreeable place, on account of the grease and coal dust.

wish to hear from his father, who had been written to. If he has not communicated with his son, and this should meet his eye, I hope he will not wait for further notice. We expect to remain in camp a few days longer; our destination I understand is Alexandria, Va. We no longer accompany the Bucktails; they go to Harpers Ferry. Benjamin F. Souder, of West Hampfield; George Rote, of Lancaster; and George W. Findley, of Columbia have been honorably discharged.

BATTLE IN MISSOURI.
BEN McCULLOUGH REPLIED BY GEN. LYON.
GRAND CAVALRY CHARGE.
Capture of Arms and Munitions of War.
St. Louis, August 7.—A battle occurred on Friday at Dug Spring, nineteen miles south of Springfield, between the Federal forces under General Lyon and the rebel troops under Ben McCullough. The battle did not commence until late in the afternoon, and was short but spirited while it lasted. The rebels left on the field forty of their dead and forty-four wounded, whilst the Federal loss was about eight killed and thirty wounded.

THE FIELD AND REGIMENTAL OFFICERS KILLED AND WOUNDED AT BULL RUN.—From late Southern papers we make up the following list of Field and Regimental officers killed at the battle of Bull Run, from which it will be understood why Jeff. Davis pronounced it a "dearly bought victory."

Four hundred francs! exclaimed the good man. "The 'o's' mistake in this—our engagement has extended over a period of eight days only, and, at twenty francs a day, the amount is one hundred and sixty francs."

THE RECRUITING BUSINESS.—A brisk stroke has been done in our borough within the last week in the way of recruiting for the different arms of the U. S. Service. Lieut. Geo. W. Crabb has been engaged for some time in enlisting men for the new regular Artillery regiment, authorized by recent act of Congress. The term of enlistment—five years—stands in the way of great success, but the attractions of the arm obtains him some recruits.

At the camp a little incident occurred which amused some, at the expense of others. Col. Simmons in the evening issued an order directing us to get ready at the beat of drum at 4 o'clock A. M., and to move at 5 o'clock A. M., and that the first company which was formed and in line, should have the right of the Regiment for the day.
