HARPER'S MAGAZINE. THE most popular Monthly in the world .- New Yor miration from the cultivated classes, that delight in a healthy, diversified, elevating periodical literature—
It is the foremost Magazino of the day. The fireside never had a more delightful companion, nor the infilion a more entertaining frend, than Harper's Magazine—Mathodist Probasant (Ballimore).

Twenty-five ceans lays it—the cheapest, richest, and most insting laxury for the money that we know, and most insting laxury for the money that we know, and most insting laxury for the money that we know the first of the same amount in clothes, carting, drinking, furniture, and how much of a substantial thing is obtained! If ideas, foreis, and sentiments have a monetary value—above all, if the humor that refreshes, the pleasantries that bring a gentle smile, and brighten the passage of a traft to your brain, and the happy combination of the real and imaginative, without which no one can live a life above the animal, are to be put into the sense opposite to dollars and cents, then you may be certain, that if Haiper were three or four times as dear, it would amply repay its price. It is a Magazine—not a book, not a scientific periodical, nor yet a supplier of light gossip and clinity anecdote—but a Magazine that takes every form of interesting, dignified, and attractive interesting dignified, and attractive interesting dignified, and attractive interesting dignified, and attractive flound in the same compose in any other publication that has come under our nance—Baston Courier.

We must refer in terms of cullery to the high tone and varied excellences of Harper's Magazine, a pournal with a monthly circulation of about 170 600 copies in whose pages are to be found some of the cherest light and general reading of the day. We speak of this work as an evidence of the American people, and the popularity it has acquired is merited. Each number contains tally 144 pages of instructive matter, uppropriately illustrated with good wood-curs; and it combines in itself the sincy monthly and the more philosophical quarterly, blended with the best feature, of the daily journal. It has great power in the creation and dissemination of a love of pure hierardire.—Treasen's Guide to American Librature, London

touching the facts in the case. The enquiries are,
first, is it a fact of my habitation and name, as stated

in any stage of my life for 40 years past, more soit
thrifty, and better colored; the same is true of my
whickers, and the only cause why it is not generally
true, is that the substance is washed off by frequent
ablation of the face, when if care were used by wipting the use in close connection with the whiskers
the same result will follow as the hair. I have been
