Desperate Fight with a Band of Rebels. KANSAS CITY, Mo., Nov. 11 .- This morning, nt ten o'clock, Col. Anthony, with 150 mounted men, was attacked on the open prairie. about ten miles from this place, by 600 Rebels, under Upton Hayes, and after a desperate struggle the Rebels retreated, seeking shelter in the woods, from which they were again routed.

.Col. Anthony then fell back about six miles, to await reinforcements, which will speedily be forwarded.

This is supposed to be the same band of Rebels that captured a part of Col. Shields' Company of Fremont Hussars, near Little :Santa Fe.

It is said there are upwards of 1,000 carmed Rebels in this county.

MAJOR GENERAL II. W. HALLECK .- General Henry Wager Halleck is one of the four Major-Generals of the regular army of the United States. He is about forty-two years of age, and was born in New York .-He entered the Millitary Academy, as a West Point cadet, in 1825; stood third in the class, and was breveted Second Lieutenant of Engineers July 1, 1839. He was acting Assistant Professor of Engineering at the Military Academy from July, 1839, to June, 1840. In 1841 he was the author of a military work on "Bitumen and Its Uses," &c. In January, 1845, he was appointed First Lieutenant, and during that year he was selected by the committee of the Lowell Institute, at Boston, to deliver one of the regular courses of lectures-the subject being "Military Science and Art " These lectures he compiled into a near velume during the following year, adding thereto a lengthy introduction on the "Jutifiableness of War." The work contains anuch valuable elementary instruction as well as abundance of historical illustration. and is written with considerable ability .-In 1847 he was breveted Captain for gallant conduct in affairs with the enemy on the 19th and 20th days of November, 1847, and for meritorious service in California. Was Secretary of State of the province of California under the military government Generals Kearney, Mason and Biley, from 1847 to the end of 1849. He was chief of the staff to Commodore Shubrick, in the naval and military operations on the Pacific coast in 1847 and 1848, and was a member of the convention in 1849 to form, and of the committee to draft, the Constitution of the State of California. In July, 1853, he was appointed Captain of the Engineers, and resigned August 1, 1854. Independent of his military capacity, General Halleck is noted as an able lawyer, he, at the time of his appointment, being the principal partner in the law firm of Halleck, Billings & Co., of San Francisco. He left his lucrative business to take up arms in defer ce of the cause of the Government of the United States, of the Government of the United States, and was created by Congress a Major General of the army, his commission bearing the Angust 19 1861. He is with good and connected the Angust 19 1861. He is with good date August 19, 1861. He is, with good authority, reputed to be a very wealthy man and a good soldier. His clear criticisms of of every variety selling off at cost Gents & You military blunders, and his just appreciation of military excellence, mark him as a ripe, ready and practical thinker, and promise the best results in action. Wherever he is place I he will, no doubt, give a good account of himself and of the enemy. There is no one at present before the public-General McClellan excepted-who is a more

I pace again the length of the three Titanic stones of the walls of Baalbecmightiest masses of quarried rock that man has lifted into the air; and then I dive into some mass of foliage with my microscope, and trace the veinings of a leaf so delicately wrought in the paintings not made with hands, that I can almost see its down and the green aphis that sucks its juices. I look into the eyes of the caged tiger and on the scaly train of the crecodile, stretched on the sands of the river that has mirrored a hundred dynastics. I srtoll through Rhehish vineyards. I sit under Roman arches. I walk the streets of once buried cities. I look into chasms of the Alpine glaciers, and en the rush of wasteful cataracts. Mitataky Unitorus—There is, perhaps, no department of multary business in which there has been more marked improvement than in the clothing of solidies. Not many years since officers and orivates were clad in granems which awere almost skin tight.
