HOLLOWAY'S OINTMENT. Bad Legs, Bad Breasts, Sores and Ulcers. All description of sores are remediable by the prope and dirgent use of this inestimable preparation. To altempt to cure bad begs by plastering the edges o he wound together is folly; for should the skin unite the wound together is folly; for should the skin unite, a loggy diseased condition remains underneath to break out with ten fold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation in and about the wound and to soothe the neighboring parts by rubbing in plenty of the Omment as sait forced into ment.

Diptheria, Ulcernted Sore Throat, and Scarlet Diptheria, Ulerrated Sore Throat, and Scarlet and Other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient; it will soon penetrate and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Omment will do its work at once. Whoever tries the unguent in the above manner for the diseases fammed, or any similar disorders affecting the chest of throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by high ty fomening the parts with warm water, and then by most effectually rubbing in the Onament.—Persons suffering from those direful complaints should lose not a moment in arresting their progress, it should be understood that it is not sufficient needly to smear the Oniment on the effected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though papable to the eye. There again bread and water poultices, after the rubbing an of the Oniment, will do great service.—This is the only sure treatment for females, cases of cameer in the stomach, or where there may be a general bearing down. Piles, Fistulas, Strictures.

Indiscretions of Youth; Sores and Ulcers. Blotches, as also swellings, een, with centainty, be radically cured if the Ominent be used freely, and the Phils be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one piace to break out in another; whereas this Ominent will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Phils to ensure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints Athansk the photo remaining the removed to the phils to the proposed the philotopic stiff. Although the above complains differ widely in their origin and nature, yet they all require local treatment. Many of the worst esses, of such diseases, will yield in a comparatively short space of time when this Chutaent is generally rubbed into the parts affected even after every other means have failed. In all serious miliadies the Pilis should be taken according rious maladies the Pills should be taken accord to the printed directions accompanying each box. Both the Ointment and Pills should be used in
