AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD. And for the speedy cure of the following complaints: Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

J. C. Ayer & Co. Gents: 1 feel it my duty to ac knowledge what your Saraqualila has done for ne tlaving inherited a Scrofilous infection, I have sufferer from it in various ways for years. Sometimes it burs out in Uters on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ngo it broke out on we head and and the stomach. Two years ngo it broke out on we head and the stomach. out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it breke out on my head and covered my scalp and ears with one sore, which was painful and leathsome beyond description. I tried many medicines and several physicians, but without much relief from my thing. In fact, the disorder grew worse. At length I was rejeiced to read in the Goopel Messenger that you had prepared an alternative (Sarsapanilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnatiand got it, and used it till it cured me. I took it, as you advise, in small doses of a tenspoonful over a month, and used almost three bottles. New and healthy skin some began to form under the sent which after a while fell off. My skin is now clear, and I know by my feelings that the discase has gone from my system. You can well believe that I feel wint I am saying when I tell you, that I held you to be one of the apostics of the age, and cenam ever gratefully.

Dr. J. B. S. Channing, of hew York City, writes, "I most cheerfully comply with the request of your agent in saving I have found your Sarsaparilla a most excellent iterative in the numerous complaints for which we employ such a temedy, but especially in Ponde Disease of the Scrotifions dishests. I have cured many inveterite cases of Lencorthean by it, and some where the complaint was caused by ulceration of the iderus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Martow, of Newhorty, Ala., writes, "A dangerous overrian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he addised the trial of your Sarsaparilla as the last recept before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease temains."

I have redired with your Sampailla.

I have redired with your Sampailla.

I have cured with it is recommended, and have form list effects truly wonderful in the cure of *Unexal and Mercurid Disease.* One of my patients had Syphilite ulcers in his throat, which were consuming his paliet and the top of his month. Your Sansparilla, steadily taken, cured him in new weeks. Another was attacked by secondary symptoms in his mose, and the ulceration had eaten away a considerable part of it, so that I believe the diseased would soon reach his brain and kill him. But it yielded to now administration of your Sarsaparilla: the ulcers healed, and he is well again, not of course without some distinguration to his face. A woman who had been tented for the same diseafer by mercury was suffering ton this p tour in the bones. They had become so sensitive to the weather that on a damp day she suffered extra atting pain in her joints and hones. She, too, was cared crimely; by your sanspatilla in a few weeks. I know non like hormals, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly tenarkable results with it have not surprised me.

Bud Legs, Bud Breasts, Sores and Ulcers.

All description of sores are remediable by the proper and diligent use of this mestimable preparation. To attempt to cure bud legs by plastering the edges of the wound together is folly; for should the skin unite, a boggy diseased condition remains underneath to break out with ten fold fluy in a few days. The only rational and successful treatment, as undecated by matter, is to reduce the inflammation in and about the wound and to soot the metaboring parts by rubbing in plenty of the Outment as salt forced into meat. Diptheria, Ulcerated Sore Throat, and Scarle

Diptheria, Ulcerated Sore Throat, and Scarlet and Other Fevers.

Any of the above diseases may be cured by well rubbing the Omiment three times a day into the chest, throat and neck of the patient; it will roon penetrate and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere is influence can be felt in any loral part, where as the Omiment will do its work at once. Whoever thest he buggett in the above manner for the diseases amond, or any similar disorders affecting the chest of throat, will find themselves relieved as by a charm. Piles, Fistulas, Strictures.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomening the paris with warm water, and then by most effectually rabbing in the Onatment—Persons suffering from these directal complaints should he andervood that it is not sufficient merely to smear the Chairment on the effected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though papable to the eye. There again bread and water poulinces, after the rubbing in of the Onatment, will do great service.—This is the only sure treatment for is males, cases of cancer in the stornach, or where there may be a general bearing down.

al bearing down.
Indiscretions of Youth; Sores and Ulcers. Blotches, as also swellings, can, with certainty, be radurally cured if the Omment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another; whereas this Omment will remove the on monitor; whereas this Omitment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Polis to ensure a listing cure.

Dropsical Swellings, Paralysis and Stiff Jaints Although the above compliants differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when this Omitment's generally rubbed into the parts affected, even after every other means have failed. In all serious maladies the Palls should be taken necording to the printed directions accompanying each box.
