Bad Legs, Bad Breasts, Sores and Ulcers. Had Legs, Bad Breats, Soces and Ulcers.
All description of sores are remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is folly; for should the skin unite, a boggy diseased condition remains underneath to break out with ten fold fury in a few days. The only rational and successful treatment, as indicated by matter, is to reduce the inflammation in and about the wound and to soothe the neighboring sarts by rubbing in plenty of the Ontment as sait forced into meat.

Diptheria, Ulcerated Sore Throat, and Scarlet and Other Fevers.

Diptheria, Ulcerated Sore Throat, and Scarlet and Other Fevers.

Any of the above diseases may be cured by well rubbing the Oinfment three times a day into the chesa, throat and neck of the putient; is will room penetrate and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Oinfment will do its work at once. Whoever tries the unguent in the above manner for the diseases named, or any similar disorders affecting the chest of throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures.

chestot throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment — Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Omiment on the effected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually by though palpable to the eye. There ugain breadf and water positions, after the rubbing in of the Ointment will do great service.—This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general bearing down.
