A PURE VINEGAR, for Table Use and far Pick-ling, equal to the best Cider Vinegar. This vinegar is manulactured under the patent of Mr. F. Michele and the subjoined certificates to the patentee and to the manufacturers in this place, will leadily to its purity and quality: resulty to its purity and quality:

MR. P. Nucrusta—Sir: I have examined the sample of winegar which you left with me for that purpose, with the view of a certaining its purity and wholesomeness, and its strength or relative acidity. I found it to be feee from lead and copper, and its acidity is due solely to, the natural acid of the vinegar, and not to the admixture of any mineral acids. It contains a little over three and a half per cent of pure accide acid, (3.41, per ct), which comes up to the strength required by, the United States Pharmacopoxia.

Very Respectfully Yours.
