Locals.-The local news market is dull. Nothing is stirring; and even the river, although the water is none of the best, refuses to rise to anything approaching "the occasion." One might suppose from the taste, that the water was swirling up over the pier, and bearing on its surface and in its depths the impurities of all the "north countree," including the canal. The town is very dull, and we would like to see the monotony varied somehow-even by a good dog fight.

A flabens Corpus case of consider ible importance to drafted men in the sev eral counties of this State, is now pending before the President Judge of this Judicial District. The case has been postponed several times, and is to come up for a final hearing before his H mor this evening. It appears that the Commissioner of Luncaster county, under what he especived to be his instructions, drafted a larger number of men than the ascertainel quota of his county, the surplus to be substituted for any in the draft who might afterwards be exempted. One of the mon thus substituted, John Markley, was brought before the Julie on a writ habias corpus, and as the question will test the right of the Commissioner to deaft more than the ascertained quota of his county, the decision of the court will be awaited with some interest. We naderstand that the decision will effect between three or four hundred in Lincuster county alone .- Harrisburg Telegraph.

THE ATLANTIC MONTHLY.

BEGINNING OF A NEW VOLUME. THE Number for January, 1863, begins the story, is the only corps which has yet arrived upon the ground. His strength, they say, cannot be less than 40,000.

D. H. flill, who also commands a corps, was hourly expected when they left.

These deserters also say that it is the talk in camp that Gen. Lee intends to despute the crossing of the Rappahannock with his entire army, and to make it the battle of the war.

The Rebels have not thrown up now entrenchments to-day, but have enlarged the ones they were at work upon yesterduy considerably.
